

Healthy Life

Leading a healthy life entails many factors: the food we eat, the amount of exercise we get, our personal relationships, our physical well-being, our psychological well-being, how we deal with stress, and more. Besides these aspects, I think staying in balance is a good motto. Below, I will reflect on these parts of a healthy life in detail based on my personal experience.

Being healthy has a lot to do with what we do not have much control over: the economic situation we were born in and our genetics. If we were born and raised in a poor neighborhood, our access to healthy food and medicine is usually much less. Also, if we were handed down bad genes, then we have to accept the fact that we might be unhealthy naturally. I was born in a middle-class family, but I have a line of heart troubles and psychological disorders in my family. So, though I did not encounter the first issue, I got in line for sour genetics.

But, say you were not born into poverty and did not inherit bad genes. What you eat can easily shape your overall health. For instance, as soon as I eat at McDonald's, or any other fast food restaurant specializing in selling food with tons of preservatives, chemicals, and the like, my stomach and whole body will eventually feel remorse for taking in such drivel. I will have irregular bowel movements, I will have a sugar high accompanied with a low, a headache, a stomach ache, and more within hours of consumption. Our bodies respond to our poor tastes, but we often ignore these signals.

In my experience, I need to exercise every day, at least a little bit. If I skip out on exercising, my knees will hurt from sitting most of the day, I feel more depressed than usual, and my self confidence will be less. It is good to combine aerobic and anaerobic exercises together in one day, though doing just one type of exercise each day is fine. Exercise seems to keep my blood flowing and my creative juices flowing.

Personal relationships can make or break us. They can lift us up, or keep us in a sour mood. In my case, I do my best to stay away from negative people and negativity in general. The energy of the people around you does in fact influence your energy.

Our physical well-being, on a holistic level, is important to maintain. Since I entered my thirties, I have noticed that sustaining proper physical health is increasingly difficult. I do not know how people in their sixties or seventies do it. This means personal grooming, watching your weight, going to the doctors often for checkups, and such.

Extending from our physical well-being, our psychological state is always key to keep in balance. Since my family on my father's side has a history of schizophrenia and manic depression, it is essential for me to keep my mental health in check. For this, I meditate twice a day, occasionally visit a psychologist, and make sure I do not fall or

A Word for Our Time Stephen Huebner, 2025-01-06 The Psalms of the Bible are timeless They are prayers and meditations and conversations with God that are personal sometimes lofty sometimes raw A Word for Our Time explores these enduring ageless words and brings them into our time God has His hand and his heart in these words They are for all people Let s explore them with some research and historical context along with anecdotal articles and poetry Discover a wellspring of peace and connection to the source of life It is not necessary to read this book in order although it would make a good devotional in the Psalms Perhaps you have a favorite psalm that needs a deeper dive or you might be attracted to one of the titles The world offers conflicting choices A Word for Our Time serves up clarity and direction with soul food for our wellbeing Being religious is not required for reading this book For a timeless larger than life perspective the author s poetry is sprinkled with collected poetry from the last 500 years Enter into these meditations so ancient words come alive and enter into your every day Let A Word for Our Time be for your time
