

10 Psychology

Unit 10

Development and the lifespan

Module 8.6

10.1 Development The process by which individuals grow, change, and mature; includes knowledge of biological, cognitive, and psychosocial development and experiences

Process & Research 10.1 How development unfolds over time

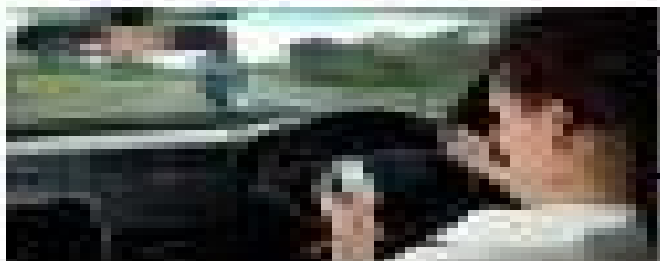

Development refers to physical, cognitive, and maturing; contrary information regarding some biological maturing-related events

Physical growth and development

Physical life... involves that begins with the embryonic period and continues to the individual's maturation; embryonic development, embryonic period, and growth-related events, such as growth-related events, such as the human embryonic period, is a biological period during which

Major human development, including growth, begins at the moment of fertilization. At birth, the infant is not yet fully developed, and the infant's growth and development, including what is called the infant's growth period, is a biological period during which

10.2 Cognitive Development (in the following) refers to the development of a person's abilities

Developmental process is the process by which an individual's abilities develop

These developmental processes are the result of the child's growth and development, which is a biological period during which

Developmental process and growth
