
* *Journal of Management Education*, 2006, 30(1), 10-17

1000

† The labels were constructed by leaders of support networks with specific roles assigned, and then by a following list. These roles are represented in bold type, based on the knowledge of members and observations that leaders made of the 11 members' names.

100

[†] These values from these equations provided information about the relationship with growth. The adjusted R-squared from these equations and the F-statistic test of the linear equations changed as the data collection methodology changed. Information on testing the relationship was available for the participants' collection of new, healthy children in year 10, collected in year 10, collected in year 10, and collected in year 10.

Figure 1 *Diagram illustrating the study design. The study was conducted in two phases. In the first phase, 100 subjects were recruited from the community and screened for eligibility. In the second phase, 50 subjects were recruited from the community and screened for eligibility.*
