

Drawing up the lower thread (bobbin)

For an impeccable finish to your sewing, it is recommended to bring up the lower thread from the bobbin before you start sewing.

- 49.1-2 Hold the needle thread towards the rear, **at the left (1)**.
Give a short press on the foot control, in order to make the needle descend and rise again. The lower thread will thus form a loop above the needle plate, (2), which you should free completely by hand.

- 50 Pass the two threads to the rear, under the presser foot. Draw them back over the thread cutter/gripper by putting them into the slit. Give the threads a slight tug to the left (3). They will be cut and remain fast in the thread cutter.
Close the rotary hook cover.

Threading when using a twin needle

- 51.1-2 Raise the spool pin and the thread guide. Place the horizontal bobbin and the bobbin holder disc (as described under 46.1-4).
- 3 Slide the removable spool pin slant into the slots at the foot of the thread guide. Place the second bobbin. Proceed with threading in the same way as for a single thread, but ...

- 52 pass one thread through one side of the separating disc of the upper tension device and the other thread through the other side.

- 53 Pass one thread on each side of the needle clamp and thread one thread through each eye of the twin needle.

N.B.: Do not go beyond the stitch width 3.
