Written in an easy to understand manner the book enables the reader to fully understand what is meant by global warming. Examines alternative fuels material usage and the motive power options available to us. Superbly illustrated with 350 colour photographs. Brian Long is a professional writer and motoring historian with over sixty books to his credit.

The Bastardizer Bill Thunder, 2009-07-19 Bill Thunder is your average disaffected world weary misanthropic PI. He's been there done that seen it all and got it remembered in the minutest most obsessive detail. But this is a case that sees him tested to his limits. There's nothing unusual about a missing man but things are a little more complicated when the missing person happens to share a name with the world's most famous recently deceased celebrity. While on the hunt for Michael Jackson a wealthy businessman Thunder risks life and limb as he trawls the violent underworld of shady dealings and Internet pornography. The Bastardizer is a truly unique novel. Combining ultraviolence more brutal than A Clockwork Orange with the surgical detail of Grey's Anatomy the misanthropic narrative of The Bastardizer carves a new groove against the well worn furrows of genre fiction.

Auto e fisco Albino Leonardi, Simone Dimitri, Clara Pollet, 2013 *Country Life*, 2004 **A Comparative Analysis of Taxes and CO2 Emissions from Passenger Cars in the Nordic Countries** Henrik Duer, Camilla Rosenhagen, Nordic Council of Ministers, 2011-05-31 The report discusses how economic instruments can be used to reduce CO2 emissions from passenger cars in the Nordic countries. The analysis indicates that the registration tax and the annual circulation tax can contribute to a reduction in the average CO2 emission from new cars. Company car schemes in the Nordic countries provide incentives for larger cars and increased driving because of subsidies and this has long term effect as a large share of new cars are registered as company cars but are used as private cars most of their lives. CO2 differentiated taxes can provide incentives to consumers to purchase CO2 efficient cars. Targeted broader packages which besides providing tax incentives also offer advantages to more environmentally friendly cars can be more effective than general tax increases. Transparency of
