GOAL:

HAZARD COMMUNICATION:

It is recognized that some job-related procedures frequently require the use of chemicals, which have hazardous properties. A written Hazard Communications Program was implemented in each department and work area at Utah State Hospital. Each employee may review this program, found in the front of each Material Safety Data Sheet (MSDS) book, during his or her shift.

MSDS:

Consult the MSDS book for specifics concerning the chemicals with which you work. You have the right to know, under OSHA regulations, the health and safety procedures and appropriate precautions. It is the responsibility of each employee to follow MSDS guidelines. Remember that the MSDS does not give dilution ratios for the chemical. This information is found on the chemical label.
