Fraser, 2012-03-06 I am commander Bob Sutton Sue Costco is my first officer and Lieut Joseph Franks is the third member of our team of astronauts that make up our crew We have just departed earth on our first manned mission to Mars To date is 2025 and it's our second day out I have just laid down for a short nap when Hay guys Sue says abruptly according to this read out the ship has increased its speed from 15 000 to 20 000 mph in the last few minutes That's a possible I exclaimed jumping up to double

check her figures Since we left Earth orbit our engines have been shut down if anything we should be going slower not faster But after checking the ship s instruments we concluded that she was right What the hell is going on I replied as I started to recheck the instruments again About 15 to 20 minutes had gone by Sue was busy as a bee trying to calculate our speed again as I frantically looked over at her figures suddenly Her eyes widened holy mother of God she screamed our speed is now increased to 41 000 mph and is still climbing Joe yelled I have just picked up a large mass of something a couple of thousand miles ahead on an intercept course I don t know what it is but every minute it s growing larger I believe it s pulling us toward it We will have to do an emergency burn I commanded sliding into my seat and fastening my seat belt Are you guys strapped in I yelled Not waiting for an answer I fired our right steering rockets as I felt the seatbelt harness start to cut into my shoulder I knew that we were into our turn After I had turned the ship about 45 I shut the engines down but within a few seconds the ship seemed too turned back to its original course I then fired our left steering rockets but the ship didn t turn at all as we all stared helplessly at the ship s Main monitor we realized that straight in front of us was a large mass Minute by minute the mass grew clearer until we were able to see this large gaping black hole Oh no Sue screamed covering her eyes with her hands Within a second or two we felt ourselves being sucked into it as we passed the holes outer edge the ship seemed too changed directives immediately heading down into the hole I felt my seat belt drastically cutting into my shoulder and I was on the verge of blacking out I ll see you both in our next lifetime I remember saying and then everything went black
