Gender, Judging and the Courts in Africa J. Jarpa Dawuni, 2021-11-29 Women judges are playing increasingly prominent roles in many African judiciaries yet there remains very little comparative research on the subject Drawing on extensive cross national data and theoretical and empirical analysis this book provides a timely and broad ranging assessment of gender and judging in African judiciaries Employing different theoretical approaches the book investigates how women have fared within domestic African judiciaries as both actors and litigants It explores how women negotiate multiple hierarchies to access the judiciary and how gender related issues are handled in courts The chapters in the book provide policy theoretical and practical prescriptions to the challenges identified and offer recommendations for the future directions of gender and judging in the post COVID 19 era including the role of technology artificial intelligence social media and institutional transformations that can help promote women s rights Bringing together specific cases from Kenya Uganda Ghana Nigeria Zambia Tanzania and South Africa and regional bodies such as ECOWAS and the African Commission on Human and Peoples Rights and covering a broad range of thematic reflections this book will be of interest to scholars students and practitioners of African law judicial politics judicial training and gender studies It will also be useful to bilateral and multilateral donor institutions financing gender sensitive judicial reform programs particularly in Africa The Open Access version of this book available at www.taylorfrancis.com/books/oa-edit/10-4324/9780429327865/gender-judging-courts-africa-jarpa-dawuni has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Will to Drill - Mining in Arctic Communities Brigit Dale, Ingrid Bay-Larsen, Berit Skorstad, 2017-10-04 This book focuses on the connections between mining activities knowledge politics and the valuation of landscape in selected case sites in Russia Greenland and Norway whilst considering the interrelated aspects of industrialized natural resource based development and environmental concerns in the Arctic The case studies in these three different countries reveals that there are indeed multiple Arctics not least concerning the way extractive industries are received and perceived and that national legislation public awareness and economic alternatives are amongst the variables that influence to what extent environmental ramifications of mining are accepted Through analysis of political discourses legal documents grey literature discussions in local and national media and empirical material from in site fieldwork the authors seek to understand how debates about mining reveal more general conflicts and concerns about how to define sustainability The book contributes to the overall debates on both extractive industries and development trends in the Arctic and will as such be of interest for both established scholars and students as well as policy makers and the public The compilation of cases and variety of analytical perspectives will further stimulate the ongoing debates concerning the impacts of extractive industries on communities both in the Arctic and beyond

The Oxford Handbook of Comparative

Environmental Law Emma Lees, Jorge E. Viñuales, 2019-05-06 This Handbook is the first comprehensive account of comparative environmental law. It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points: country studies from all continents; responses to common problems including air pollution, water management, nature conservation, genetically modified organisms, climate change and energy; chemicals waste; foundational components of environmental law systems including principles, property rights, administrative and judicial organisation, command and control, regulation, market mechanisms, informational techniques and liability mechanisms; and common interactions of environmental protection with the broader public, private and criminal law contexts. The volume brings together the foremost authorities in this field from around the world to provide a concise, self-contained and technically rigorous account of environmental law as a single overall system. Concentrate Questions and Answers: Evidence Maureen Spencer, John Spencer, 2016 This essential Q & A study and revision guide contains a variety of model answers and plans to give you the confidence to tackle any essay or problem question and give you the skills you need to excel in law exams and coursework assignments. The Supreme Court of Ghana Law Reports, 2015 **Legitimate Expectations in the Common Law World** Matthew Groves, Greg Weeks, 2017-01-12 The recognition and enforcement of legitimate expectations by courts has been a striking feature of English law since *R v North and East Devon Health Authority ex parte Coughlan* 2001 3 QB 213. Although the substantive form of legitimate expectation adopted in *Coughlan* was quickly accepted by English courts and received a generally favourable response from public law scholars, the doctrine of that case has largely been rejected in other common law jurisdictions. The central principles of *Coughlan* have been rejected by courts in common law jurisdictions outside the UK for a range of reasons such as incompatibility with local constitutional doctrine or because they mark an undesirable drift towards merits review. The sceptical and critical reception to *Coughlan* outside England is a striking contrast to the reception the case received within the UK. This book provides a detailed scholarly analysis of these issues and considers the doctrine of legitimate expectations both in England and elsewhere in the common law world. **Introducing RDA** Chris Oliver, 2021-04-06 Since Oliver's guide was first published in 2010, thousands of LIS students, records managers and cataloguers and other library professionals have relied on its clear, plainspoken explanation of RDA (Resource Description and Access) as their first step towards becoming acquainted with the cataloguing standard. Now reflecting the changes to RDA after the completion of the 3R Project, Oliver brings her Special Report up to date. This essential primer concisely explains what RDA is, its basic features and the main factors in its development; describes RDA's relationship to the international standards and models that continue to influence its evolution; provides an overview of the latest developments focusing on the impact of the 3R Project; the results of aligning RDA with IFLA's Library Reference Model (LRM) and the outcomes of internationalization; illustrates how information is organized in the post-3R Toolkit and explains how to navigate through this new structure and discusses how RDA continues to enable improved resource

discovery both in traditional and new applications including the linked data environment *Space Warfare in the 21st Century* Joan Johnson-Freese, 2016-11-08 This book examines the recent shift in US space policy and the forces that continually draw the US back into a space technology security dilemma The dual use nature of the vast majority of space technology meaning of value to both civilian and military communities and being unable to differentiate offensive from defensive intent of military hardware makes space an area particularly ripe for a security dilemma In contrast to previous administrations the Obama Administration has pursued a less militaristic space policy instead employing a strategic restraint approach that stressed multilateral diplomacy to space challenges The latter required international solutions and the United States subsequently even voiced support for an International Code of Conduct for Space That policy held until the Chinese anti satellite ASAT test in 2013 which demonstrated expanded Chinese capabilities This volume explores the issues arising from evolving space capabilities across the world and the security challenges this poses It subsequently discusses the complexity of the space environment and argues that all tools of national power must be used with some degree of balance toward addressing space challenges and achieving space goals This book will be of much interest to students of space policy defence studies foreign policy security studies and IR

Rethinking Post-Cold War Russian-Latin American Relations Vladimir Rouvinski, Victor Jeifets, 2022-06-07 Today there is plenty of evidence that Russia has become a prominent external actor in Latin America and the Caribbean Yet few books have attempted to better understand the reasons behind Russia's return and Moscow's continuous engagement in the region In order to fill the gap this volume offers the first interdisciplinary study of Russian Latin American relations after the end of the Cold War Across 16 chapters leading experts from Russia Europe the United States and Latin America collectively re-examine the Soviet legacy to reveal the conditions in which Russia operates today and identify the key trends of contemporary Russian relations with this part of the world The book then moves on to provide a detailed case study analysis of Russia's bilateral relations with Venezuela Cuba Mexico Brazil Argentina and Colombia identifying the most critical dimensions of Russian engagement *Rethinking Post Cold War Russian Latin American Relations* allows readers to identify the fundamental driving forces of Russia's renewed commitment to the area its strategies and experiences The book will be of interest to readers of international relations and area studies historians of modern Latin America migration studies political economy and any political scientists interested in Russian decision making

The Routledge Companion to Accounting and Risk Margaret Woods, Philip Linsley, 2017-03-27 To date there has been little consideration of the many different ways in which accounting and risk intersect despite organisations being more determined than ever to build resilience against potential risks This comprehensive volume overcomes this gap by providing an overview of the field drawing together current knowledge of risk in a wide range of different accounting contexts Key themes such as corporate governance trust uncertainty and climate change are covered by a global array of contributing scholars These contributions are divided into four areas The broader aspects of risk and risk management Risk in financial reporting Risk in management accounting Risk monitoring The book is supported by a series of illustrative case studies which help to bring together theory and practice With its wealth of examples and analyses this volume provides essential reading for students scholars and practitioners charged with understanding diverse facets of risk in the context of accounting in the business world

Peter Akinola: Who Blinks First? Gbenga Gbesan, 2020-03-30 To the astonishment and dismay of Anglican leadership in the Global North Nigeria's Archbishop Peter Akinola led the Global South's revolt against the campaign to normalize homosexuality within the global Anglican communion For this he was twice recognized by Time magazine as one of the 100 Most Influential People on earth As shepherd of an immense Nigerian flock he joined arms with like minded archbishops in Africa Asia and South America to insist that the church be guided by the Bible rather than culture Here is the remarkable story of this conflict from its social beginnings in nineteenth century Germany through the renegade behavior of national churches in Canada the United States and the United Kingdom on to gatherings addressing the issues from Dromantine Northern Ireland to Kuala

Lumpur Malaysia At one point Archbishop of Canterbury Rowan Williams who had been enabling the progressives challenged Archbishop Akinola We shall see who blinks first Since that day it is clear that neither Akinola nor his colleagues have blinked Indeed through the formation of GAFCON Global Anglican Future Conference and union with biblically faithful Anglicans in the Global North they are pressing their cause with an eye toward the next decennial assembly of bishops at Lambeth

Related Party Transactions and Corporate Groups Ivan Romashchenko, 2020-03-06 In a market environment where economic actors conduct themselves as diligent and conscientious managers the regulation of related party transactions RPTs would be largely irrelevant Unfortunately the corporate reality is far from an ideal world that is innocent of market abuse and corporate fraud It remains necessary to protect minority shareholders from the wrongdoings of majority shareholders and to protect all shareholders from opportunistic managerial behaviour This timely book the first on the subject since implementation of the European Union's EU's revised Shareholders Rights Directive provides in depth analysis of how and to what extent RPTs are covered by existing legal requirements on capital protection and corporate group regulation highlighting experiences and strategies adopted in Germany Poland and the Netherlands as examples for Eastern European countries and in particular Ukraine Beyond his comparative analysis of the current status the author offers recommendations for more effective handling of RPTs investigating such aspects as the following what constitutes a corporate group and how group issues are regulated in the various legal systems what constitutes a conflict of interest originating in ownership and control and what types of such conflicts occur whether RPTs within corporate groups should receive special treatment relative to transactions outside groups combatting corporate raiding most often carried out through illegal seizure of corporate assets approval and disclosure requirements for RPTs and how information about RPTs is disclosed publicly Drawing on resources including legislation case law scholarship and intensive discussions with practicing lawyers from several jurisdictions the author underscores the imperative of establishing limitations and requirements that oblige a company's officers shareholders and other potential related parties to follow certain rules whenever they wish to enter into an RPT As a contribution to the debate about the convergence between EU corporate law and that of major eastern European states the book has no peers Practitioners in both East and West who advise on compliance with regulations for RPTs or represent stakeholders interests against abusive RPTs will ensure appropriate remedies and protection mechanisms for their clients

Fraud and Risk in Commercial Law Paul S Davies, Hans Tjio, 2024-08-08 This book focuses on contemporary problems related to fraud and risk in commercial law It has been said by some that we are in a golden age of fraud In part this has been caused by globalisation technological changes and the financialisation of business This has resulted in the creation of automated linkages with integrated supply chains and the creation of systemic risks which have been exacerbated by new forms of intangible assets like tokens and their ease of movement While regulation has ebbed and flowed given the desire of governments to generate economic growth as well as the distrust of their coercive powers the

courts have sought to strike a balance between considerations such as commercial certainty and fairness The book provides an analysis of key contemporary issues on the theme of fraud and risk in commercial law including technology and fraud secondary liability and failure to prevent economic crime abuse of business entities insolvency and creditor protection injunctions and other orders cross border issues the relationship between regulation and private law and solutions for policy makers
