

Question 31:

To what extent, if at all, does the data suggest that housing in the UK is unaffordable? You must use the data in Extract A and D to support your answer.

Level of response	Response	Max 10 marks
3	A good response that: - is well-organised and includes at least three relevant, well-developed issues - makes effective use of the numerical/statistical data in Extract B - shows some appreciation of the limitations of the data - includes a supported final judgement concerning the extent to which UK manufacturing industry has been in decline since 2003.	6–10 marks
2	A reasonable response that: - is fairly well organised and includes at least two relevant and fairly well-developed issues - includes some satisfactory use of the numerical/statistical data in Extract B - may show some appreciation of the limitations of the data - at the top of the level, is likely to include a final judgement regarding the extent to which UK manufacturing industry has been in decline since 2003.	4–7 marks
1	A weak response that: - is very brief and/or lacks coherence - may include one or more superficial points regarding the extent to which UK manufacturing industry has declined since 2003 - contains very limited or poor use of the data in Extract B - doesn't show any appreciation of the limitations of the data - may include an unsupported judgement concerning the decline in UK manufacturing since 2003.	1–3 marks

Pick out 3 relevant pieces of data that support house prices being high:

- Extract A shows average prices rising
- Extract D shows stamp duty rising, average house prices rising in some areas and deposits rising.

Evaluation points.

- Extract B is an average
- Need to know details about the house (bedrooms, size, area)
- Extract D shows some areas are affordable
