*'My Name is Not Natasha'* John Davies, 2009 This book challenges every common presumption that exists about the trafficking of women for the sex trade It is a detailed account of an entire population of trafficked Albanian women whose varied experiences including selling sex on the streets of France clearly demonstrate how much the present discourse about trafficked women is misplaced and inadequate The heterogeneity of the women involved and their relationships with various men is clearly presented as is the way women actively created a panoptical surveillance of themselves as a means of self policing There is no artificial divide between women who were deceived and abused and those who choose sex work in fact the book clearly shows how peripheral involvement in sex work was to the real agenda of the women involved Most of the women described in this book were not making economic decisions to escape desperate poverty nor were they the uneducated nave entrapped into sexual slavery The women's success in

transiting trafficking to achieve their own goals without the assistance of any outside agency is a testimony to their resilience and resolve *Psycho-Social Aspects of Human Sexuality and Ethics* Dhastagir Sultan Sheriff, 2021-01-27 With the emerging newer trends in sexuality and clashes with the traditional practice of human sexuality there is a need for introspection and a framework of ethical principles that may guide human sexuality and its practice Human sexuality is more than a biological phenomenon Open discussions about sexual identity and sexual practices will help people better understand themselves others and the world around them This book gives a panoramic view of certain aspects of human sexuality in health and disease The Bride's Choice (historical western romance with a shy hero) Ruth Ann Nordin, Stop stuttering Jack Don't be

**American Child Bride** Nicholas L. Syrett, 2016-09-02 Most in the United States likely associate the concept of the child bride with the mores and practices of the distant past But Nicholas L Syrett challenges this assumption in his sweeping and sometimes shocking history of youthful marriage in America Focusing on young women and girls the most common underage spouses Syrett tracks the marital history of American minors from the colonial period to the present chronicling the debates and moral panics related to these unions Although the frequency of child marriages has declined since the early twentieth century Syrett reveals that the practice was historically far more widespread in the United States than is commonly thought It also continues to this day current estimates indicate that 9 percent of living American women were married before turning eighteen By examining the legal and social forces that have worked to curtail early marriage in America including the efforts of women's rights activists advocates for children's rights and social workers Syrett sheds new light on the American public's perceptions of young people marrying and the ways that individuals and communities challenged the complex legalities and cultural norms brought to the fore when underage citizens by choice or coercion became husband and wife

**Race and Family** Roberta L. Coles,2006 The author provided interesting original examples which I found engaging I think the biggest strength is avoiding the one ethnicity per chapter approach found in so many books on family diversity I like the structural approach Hilary A Rose Concordia University A very useful book as a companion text for courses on race and ethnicity The chapters are easy to follow for undergraduate students Renxin Yang Northern Michigan University I think the book is needed because there are limited choices currently available and this book is moving in the right direction A strength is that it is not an edited book like so many other books on this topic There is a need for detailed study of ethnic minority families and I am excited about making this book my required text for my Ethnic Families Course Cheryl Burgan Evans Miami University I find the emphasis on social structure particularly appealing To date I have used Taylor's edited book which depends on the instructor to provide all of the integration Gretchen Cornwell Pennsylvania State University In *Race and Family A Structural Approach* author Roberta L Coles looks at ethnic minority families in a novel way through a structural lens Unlike many texts on race and family this book offers an approach that illustrates overarching structural factors affecting all families as opposed to examining each ethnicity in isolation from one another By focusing on various structural factors such as demographic economic and historical aspects this book analyzes various family trends in a cross cutting manner to exemplify the similarities and distinctions among all racial and ethnic groups

**The Balkars of Southern Russia and Their Deportation (1944-57)** Karen Baker, 2013-08-30

Indelible events are often stamped into the consciousness of a nation. These events shape individuals and often entire societies in the way they view social, cultural, political, ethical, and especially spiritual realities. The deportation of entire ethnic groups of the North Caucasus region of southern Russia was an immense operation of the Soviet government during World War II. The Balkarians or Balkars were forcibly taken from their native homelands and deported to distant lands within the Soviet Union. They remained in exile for thirteen years. The third generation of Balkars since that horrible experience continues to live in the shadow of the atrocities committed against their people. This book applies comprehensive research to the facts of the deportation. More importantly, it examines lingering resentments and current sentiments of the Balkarians through extensive personal interviews with those who experienced the deportation. In Karen's many interviews woven throughout the book, we learn of several Balkarians who come to faith because of the Deportation, such as Ibrahim Gelastanov. Ibrahim recounts his memories about the deportation years. He cried as he recalled the details of his mother's death within twenty-four hours of arriving in a special settlement where she died of starvation. Ibrahim tells of the horrors of his capture, the fifteen-day train ride, the forty-eight-hour boat ride, the twenty-four-hour walk to an unknown destination, and the starvation and indignities that he suffered. But Ibrahim always attributes his deportation as the means to his salvation into God's family. He was the first Balkarian Christian, and he remained the lone Balkar Christian for thirty-six years. The tiny region of Balkaria is tucked into the largest mountain range of Europe, the Caucasus Mountains, in southern Russia. The Balkarians live in the shadow of unthinkable cruelty by the Stalin regime; the deportation of their entire people group. The deportation was concealed until the late twentieth century due to the secrecy of communism. It was also hidden behind the terrors that occurred in Europe during World War II. The Balkars have suffered greatly in the last century, and they desperately need the peace of God in their hearts. This book will bring awareness to the Caucasus peoples and bring more involvement in promoting the work of the Gospel in this unstable area to the unreached peoples.
