Handbook of Reading Disability Research Anne McGill-Franzen,Richard

Allington,2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the

relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers *Report of the National Reading Panel : Teaching Children to Read : an Evidence-based Assessment of the Scientific Research Literature on Reading and Its Implications for Reading Instruction* National Reading Panel (U.S.),2000
