Parents learn to identify an eating disorder early to establish healthy attitudes toward food at a young age and to intervene in a nonthreatening nonjudgmental way. The authors concentrate on teens, the age group most often affected by eating disorders, as well as younger children. Individual chapters cover boys at risk, relapse training, dealing with friends, school and summer camp, and much more. The book includes an appendix and sections on further reading, organizations, and websites, residential and hospital programs, and references.
