Miville, Angela D.

Ferguson, 2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example Counseling the Culturally Different Sue Handbook of Multicultural Counseling Poterotto et al 2009 and Handbook of Multicultural Counseling Competencies Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology Handbook of Counseling Women Counseling Men with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related

behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today s world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations
