

MOON PLANTING GUIDE FOR GARDENERS

2021

Gardeners of many cultures throughout history have used the Moon as a convenient growing aid. It is easy to incorporate the Moon rhythms (i.e. Waxing/Waning and Ascending/Descending phases) into all garden activities. The benefits are immediate and profound. Many gardeners combine the Moon rhythms. There is often three moon rhythms in a standard month, each having variable periodicity.

A Full Moon is much stronger at Peak Ascension (highest in the sky) and is weaker at Peak Descension (lowest in the sky). If you are transplanting when the Moon is WAXING and DESCENDING the two rhythms reinforce each other. This chart presents the rhythms for the Southern Hemisphere and is based on Australian Eastern Standard Time (AEST). Use the Time Zone Adjustment Chart to convert to international time zones.
