Ramachandra N.U., Student Coordinators, 2025-04-26 **Bonding with the Lord** , 2021-12-30 Few other Hindu gods guide a regional consciousness pervade walks of everyday life and define a collective psyche the way Lord Jagannath does in Odisha and its contiguous areas Jagannath is metonymic of Odisha and the Odia way of life arguably much more than any other god for a particular geography or its peoples While not derecognising the historical and the spiritual aspects of Jagannath Bonding with the Lord attempts to look at the deployment of Jagannath in contemporary cultural practices involving the sensorium in the widest sense The project of a cultural Jagannath not only materialises him in people s everyday practices but also democratises scholarship on him The expansion of the scope of research on Jagannath to cultural expressions in a more encompassing way rather than confining to elitist religious literary sources makes him an everyday presence and significantly enhances his sphere of influence Jagannath s tribal origin his association with Buddhism and Jainism and his avatari status make him an all encompassing multilayered symbol and a treasure trove for multiple interpretations Lions in the Balance Craig Packer, 2015-09-15 The Serengeti is one of the world s most renowned ecosystems and at its apex prowls the Serengeti Lion These majestic mammals are iconic and integral and also in constant danger from encroaching humans Craig Packer is among the unique species that has spent a lifetime ensuring the study and perpetuity of these dark maned cats He has dedicated countless research hours and dollars to the coexistence of humans and wildlife in the Serengeti He has even proposed ways of using lion hunting to ensure their value and hence their protection Lions in the Balance takes us into the red in tooth and claw world of lion conservation It is an incredibly candid entertaining and at points alarming look at what the future of the Serengeti lions entails and how the politics of conservation require survival strategies far more creative and powerful than what animals humans included on the savannas must possess A sequel to Mr Packer s Into Africa this diary based chronicle of the past decade draws readers along the dusty trails and into the spectacular sunsets of the Serengeti Through his experiences we learn that female lions prefer their male manes dark and long that lion attacks on humans most

commonly occur during the full moon cycles and that citizen science is shaping the world Packer's initiative Snapshot Serengeti has helped engage globally and locally and has identified thousands of images of the Serengeti The narrative moves from Arusha to the Serengeti to Washington DC and with some temporal hopping as often the stories are as rich and multilayered as the Serengeti ecosystem And Mr Packer demonstrates that he possesses himself a bit of cat having needed nearly nine lives to persist in the ever dynamic and vexed world of conservation in Africa

Social Theory in Archaeology and Ancient History Geoff Emberling, 2015-11-24 At a time when archaeology has turned away from questions of the long term and large scale this collection of essays reflects on some of the big questions in archaeology and ancient history how and why societies have grown in scale and complexity how they have maintained and discarded aspects of their own cultural heritage and how they have collapsed In addressing these long standing questions of broad interest and importance the authors develop counter narratives new ways of understanding what used to be termed cultural evolution Encompassing the Middle East and Egypt India Southeast Asia Australia the American Southwest and Mesoamerica the fourteen essays offer perspectives on long term cultural trajectories on cities states and empires on collapse and on the relationship between archaeology and history The book concludes with a commentary by one of the major voices in archaeological theory Norman Yoffee
