Domestic Abuse and Child Contact Rosemary Hunter, Adrienne Barnett, Felicity Kaganas, Shazia Choudhry, 2020-12-30 This book presents papers from an International Symposium on Contact Disputes and Allegations of Domestic Violence Identifying Best Practices held in London in May 2017 The editors invited a group of international experts to explain the approaches taken in their jurisdictions to allegations of domestic violence in child contact cases with a view to identifying international best practices in such cases The book includes contributions from England and Wales Scotland Ireland Canada Sweden and Spain as well as information presented at the symposium from New Zealand and Australia The chapters include attention to particular issues such as specialist domestic violence courts judicial training and hearing children s voices Collectively the chapters identify a set of common problems experienced across all of the jurisdictions including an overwhelming emphasis on the value of children s ongoing contact with non resident parents and the consequent minimisation of domestic violence and the muting of the voices of children who do not wish to have contact with

abusive parents Best practices in taking domestic violence seriously and providing adequate protection from further abuse for children and non abusive parents were less in evidence However the concluding chapter draws together details of several initiatives and approaches which offer promising ways forward The chapters in this book were originally published as a special issue of the Journal of Social Welfare and Family Law

Lean Logic David Fleming, 2016 Lean Logic is David Fleming's masterpiece the product of more than thirty years work and a testament to the creative brilliance of one of Britain's most important intellectuals A dictionary unlike any other it leads readers through Fleming's stimulating exploration of fields as diverse as culture history science art logic ethics myth economics and anthropology being made up of four hundred and four engaging essay entries covering topics such as Boredom Community Debt Growth Harmless Lunatics Land Lean Thinking Nanotechnology Play Religion Spirit Trust and Utopia The threads running through every entry are Fleming's deft and original analysis of how our present market based economy is destroying the very foundations ecological economic and cultural on which it depends and his core focus a compelling grounded vision for a cohesive society that might weather the consequences A society that provides a satisfying culturally rich context for lives well lived in an economy not reliant on the impossible promise of eternal economic growth A society worth living in Worth fighting for Worth contributing to The beauty of the dictionary format is that it allows Fleming to draw connections without detracting from his in depth exploration of each topic Each entry carries intriguing links to other entries inviting the enchanted reader to break free of the imposed order of a conventional book starting where she will and following the links in the order of her choosing In combination with Fleming's refreshing writing style and good natured humor it also creates a book perfectly suited to dipping in and out The decades Fleming spent honing his life's work are evident in the lightness and mastery with which Lean Logic draws on an incredible wealth of cultural and historical learning from Whitman to Whitefield Dickens to Daly Kropotkin to Kafka Keats to Kuhn Oakeshott to Ostrom Jung to Jensen Machiavelli to Mumford Mauss to Mandelbrot Leopold to Lakatos Polanyi to Putnam Nietzsche to Nass Keynes to Kumar Scruton to Shiva Thoreau to Toynbee Rabelais to Rogers Shakespeare to Schumacher Locke to Lovelock Homer to Homer Dixon in demonstrating that many of the principles it commends have a track record of success long pre dating our current society Fleming acknowledges with honesty the challenges ahead but rather than inducing despair Lean Logic is rare in its ability to inspire optimism in the creativity and intelligence of humans to nurse our ecology back to health to rediscover the importance of place and play of reciprocity and resilience and of community and culture Recognizing that Lean Logic's sheer size and unusual structure could be daunting Fleming's long time collaborator Shaun Chamberlin has also selected and edited one of the potential pathways through the dictionary to create a second stand alone volume Surviving the Future Culture Carnival and Capital in the Aftermath of the Market Economy The content rare insights and uniquely enjoyable writing style remain Fleming's but presented at a more accessible paperback length and in conventional read it front to back format
