Scoffing at Scripture Frank Bolger Kelly,2011-02 A former Roman Catholic Frank Bolger Kelly has long wondered why thinking humans as a whole in the 21st century have not yet been able to disenthral themselves from the demonstrable falsehoods and sectarian nonsense of organized religion A few years ago Kelly decided to sit down with the sacred scriptures of several of the world s major religions the alleged bedrocks of these various creeds in a last ditch effort to achieve holy inspiration Instead he became wholly disenchanted and Scoffing at Scripture A Commoner Reads the World s Holy Writ and Rejects Traditional Religion is the result Far from representing that all elusive Word of God creedal scripture the world over it seems to Kelly merely cloaks the tribal agendas and cultural designs of the world s priestly and virtually allmale elites With the general reader in mind the author has grouped together a series of compact discussions of religion and scripture for cross cultural comparative reference Kelly s intent is to facilitate critical analysis of the world s holy writ and in particular to encourage younger skeptical readers of a secular mind to confront the doctrinal scriptural and ritual absurdities of those faiths into which they were born and continue to be indoctrinated Frank Bolger Kelly grew up in an Irish Catholic family in the Bronx New York matriculated to a noted Jesuit college in New England and subsequently did time at a prestigious non sectarian institution of higher learning in the Midwest It was during his enlightening time at the latter that Kelly first began seriously to question not only his own religious upbringing but the scriptural bases of all the world s major religions Kelly was quickly convinced that the vast majority of the faithful the world over commoners like himself just might reconsider their religious roots and motivations in a new light if they actually bothered to immerse themselves for a time in their own sacred scriptures rather than merely fake familiarity with them Actually to read scripture in all its antiquated tendentious sectarian absurdity Kelly reasoned is to take a first giant step in renouncing irrational creeds of all kinds Thus was born Scoffing at Scripture A Commoner Reads the World s Holy Writ and Rejects Traditional Religion a book from which the author hopes the open minded reader will draw a secularly pure spiritual sustenance

**Word Made Flesh** Dawn Langman,2019-10-23 Building on the metahistorical exploration of drama that was the subject of Tongues of Flame Dawn Langman explores the practical pathways through which the art of acting can evolve beyond the body and soul paradigm still broadly accepted in contemporary culture Through the integration of Rudolf Steiner s research in the arts of speech and

eurythmy and together with Michael Chekhov's acting techniques Langman raises the spiritual dimension of the human being from that vague sensing which many actors intuit but which has however little bearing on their practice into a precise methodology In this second volume in her series on The Actor of the Future she offers performance artists a clear pathway ahead enabling them to develop their work out of spiritual insight and consciousness

*Faith or Gullibility?* David Rex Holt, 2016-06-07 *Faith or Gullibility* was originally written in answer to the author's many friends who asked why he was no longer attending church but as time passed and his studies revealed more and more anomalies in religious beliefs around the world it became very obvious that religious deception was rampant in all doctrines This was nowhere more obvious than in the political environments in which those doctrines were originally conceived where necessity demanded some sort of unified stance by different groups of people

Much more than today where technology can provide answers in past centuries naturally gifted leaders needed convincing stories to persuade the masses to act in harmony to achieve the best outcomes and so those people were in that environment lauded as prophets and even credited with what became known as divine inspiration although in actual fact their leading was nothing more than intelligent use of their own intellects Nowhere was this more evident than in cases where their prophecies directly contradicted the laws of physics under the name of miracles A principal problem with this was that when those so called prophets expounded their ideas scientific knowledge was almost non existent so that rank and file people readily accepted them and passed them down from generation to generation often by word of mouth because illiteracy was far more prevalent than it is in modern developed countries However with increased knowledge human wisdom the sagacious application of knowledge has increased exponentially beyond all reckoning amongst open minded people of all religions to the point where it is no longer possible to justify those outdated beliefs when they are rationalised against the immutable laws of physics This is particularly so when one considers that the entire universe and in fact many universes were all made without a single physical law being broken As studies become more and more logical it become more and more apparent that the main reason for religious beliefs whatever they may be is insecurity where human nature cannot accept that life is a finite thing People cling tenaciously to any doctrine that promises any sort of immortality whether it makes any sense or not and so the purpose of this book increasingly became changed from a mere answer to personal questions to an in depth study of religious mythology and deception
