Developing Number Sense Julia Anghileri,2008-05-15 Developing Number Sense identifies innovative teaching practices and provides a rigorous treatment of arithmetic and its assessment at Key Stages two and three *Professional Development for Inquiry-Based Science Teaching and Learning* Olia E. Tsivitanidou,Peter Gray,Eliza Rybska,Loucas Louca,Costas P. Constantinou,2018-09-03 This book examines the implementation of inquiry based approaches in science teaching and learning It explores the ways that those approaches could be promoted across various contexts in Europe through initial teacher preparation induction programmes and professional development activities It illustrates connections between scientific knowledge deriving from the science education research community teaching practices deriving from the science teachers community and educational innovation Inquiry Based Science Teaching and Learning IBST L has been promoted as a policy response to pressing educational challenges including disengagement from science learning and the need for citizens to be in a position to evaluate evidence on pressing socio scientific issues Effective IBST L requires well prepared and skilful teachers who can act as facilitators of student learning and who are able to adapt inquiry based activity sequences to their everyday teaching practice Teachers also need to engage creatively with the process of nurturing student abilities and to acquire new assessment competences The task of preparing teachers for IBST L is a challenging one This book is a resource for the implementation of inquiry oriented approaches in science education and illustrates ways of promoting IBST L through initial teacher preparation induction and professional development programmes International Reflections on the Netherlands Didactics of Mathematics Marja van den Heuvel-Panhuizen,2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education **Interactional Research Into Problem-Based Learning** Susan M. Bridges,Rintaro Imafuku,2020-08-15 Problem based learning PBL has been deployed as a student centered instructional approach and curriculum design in a wide range of academic fields across the world The majority of educational research to date has focused on knowledge based outcomes addressing why PBL is useful Researchers of PBL are developing a growing

interest in qualitative research with a process driven orientation to examining learning interactions It is essential to broaden this research base so as to support PBL designs and approaches to leading students into higher order thinking and a deeper approach to learning Interactional Research Into Problem Based Learning explores how students learn in an inquiry led approach such as PBL Included are studies that focus on learning in situ and go beyond measuring the outcomes of PBL The goal is to further expand the PBL research base of qualitative investigations examining the social dimension and lived experience of teaching and learning within the PBL process A second aim of this volume is to shed light on the methodological aspects of researching PBL adding new perspectives to the current trends in qualitative studies on PBL Chapters cover ethnographic approaches to video analysis introspective protocols such as stimulated recall and longitudinal qualitative studies using discourse based analytic approaches Specifically this book will further contribute to the current educational research both theoretically and empirically in the following key areas students learning processes in PBL over time and across contexts the nature of quality interactions in PBL tutorials the inter cultural aspects of learning in PBL facilitation processes and group dynamics in synchronous and asynchronous face to face and blended PBL and the developing nature of PBL learner identity
