Finding Funding Ernest W. Brewer, 2001-01-24 The materials collected developed and compiled in this volume are mostly related to grant proposal development for education but the push for uniformity in grants among the various federal agencies means that the materials have wider application Some of the ideas and tips may be of general interest and value to a grantwriter some ideas about project management should benefit anyone operating a project The book is divided into three major parts and several additional supporting sections Part I discusses the planning and some of the major tools of the trade needed to get started in the grant project field and to use the Internet to access funding resources Part II covers some important steps in developing a successful grant application Part III discusses both closing out a project annually and the often difficult but realistic element of terminating the project at the end of external support This handbook includes problem definition analysis of need goals and objectives activities some management details timelines personnel budget reports evaluation and dissemination of results The work is about exploring writing implementing and terminating an idea as a strong proposal and as an operating project Appendixes include list abbreviations state points of contact and a glossary Contains 51 references DFR

Program Evaluation Theory and Practice, First Edition Donna M. Mertens, Amy T. Wilson, 2012-03-01 This engaging text takes an evenhanded approach to major theoretical paradigms in evaluation and builds a bridge from them to evaluation practice Featuring helpful checklists procedural steps provocative questions that invite readers to explore their own theoretical assumptions and practical exercises the book provides concrete guidance for conducting large and small scale evaluations Numerous sample studies many with reflective commentary from the evaluators reveal the process through which an evaluator incorporates a paradigm into an actual research project The

book shows how theory informs methodological choices the specifics of planning implementing and using evaluations It offers balanced coverage of quantitative qualitative and mixed methods approaches Useful pedagogical features include Examples of large and small scale evaluations from multiple disciplines Beginning of chapter reflection questions that set the stage for the material covered Extending your thinking questions and practical activities that help readers apply particular theoretical paradigms in their own evaluation projects Relevant Web links including pathways to more details about sampling data collection and analysis Boxes offering a closer look at key evaluation concepts and additional studies Checklists for readers to determine if they have followed recommended practice
