Robins, Laura-Jane Evans-Jones, 2016-09-17 English teachers are always keen to explore new ways of motivating their pupils to engage with reading both for learning and for pleasure Literacy Activities for Classic and Contemporary Texts 7-14 is a practical friendly book which uses the whoosh to cover some of our best known classic and contemporary texts and offers a thoroughly enjoyable way for pupils to become part of the story rather than just passive recipients of it As an innovative and active learning strategy the whoosh technique allows all students regardless of gender age ability learning need or command of language to partake on an equal footing For younger pupils the activities in this book provide an ideal way to internalise structure and key elements in story telling through physical response For older students they provide an enjoyable way to engage with challenging texts as well as facilitating the analysis of themes issues characterisation and setting Students themselves become the story as its characters sounds and even objects once they are familiar with whooshing many students will want to write and produce a whoosh of their own Classic authors and texts covered by this book include Aesop's fables Greek myths and legends Beowulf Sir Gawain and the Green Knight Oscar Wilde Shakespeare The Tempest Twelfth Night Hamlet A Midsummer Night's Dream Charlotte Bronte Charles Dickens George Eliot Robert Louis Stevenson Mary Shelley Andrew Norriss Frank Cottrell Boyce Nina Bawden Michelle Magorian and much more You can use a whoosh to introduce a new text to examine conflict dilemma plot setting or characterisation whoosh a controversial section of text to provoke discussion or overcome reluctance to engage with archaic language by whooshing key sections of a story Discussion starters lesson objectives and follow up activities are included throughout the text alongside the whooshes and scripts enabling pupils to deliver dialogue are provided on the book's eResource This book is an invaluable resource providing whooshes across a wide range of genres to meet the learning needs of children from 7 to 14 for both practising primary and lower secondary teachers **Living Languages and New Approaches to Language Revitalisation Research** Tonya Stebbins, Kris

Eira, Vicki Couzens, 2017-09-20 This book advocates for a new model of describing the practices of language revitalization and decolonizing the research methods used to study them The volume provides a comprehensive treatment of the theoretical and methodological foundations of working with communities revitalizing their languages It lays out the conceptual framework at the heart of the project and moves into a description of the model based on a seven year research process working with Aboriginal communities in eastern Australia Six case studies show the model's application in language revival practice The book critically engages with the notion of revival languages as emergent and ever transforming and develops a

holistic approach to their description that reflects Aboriginal language practitioners understandings of the nature of language. It seeks to demonstrate how the conceptual tools developed from this approach can support efforts to develop deeply collaborative research, highlight the diversity of language revitalisation practice and map between the realms of old and new, local and global and the social, cultural and textual dimensions of language, making this an ideal resource for researchers and scholars in sociolinguistics, linguistic anthropology, education, cultural studies and post colonial studies.

Why Science and Art Creativities Matter, 2020-01-20. *Why Science and Arts Creativities Matter* is a ground breaking text which significantly extends current understandings of STEAM and debates about individuation of disciplines vis vis transdisciplinary theory. Drawing upon posthumanism, new materialism and enactivism, this collection of chapters aims to dwell further into the ways in which we come to know in relationship with the world. The text draws together a wide set of approaches and points of views to stimulate dialogue and awareness of the different ways in which we can extend the repertoire of human faculties for thinking and experiencing the world. A unique invitation is shared with readers to develop greater understanding of the contribution of education across the arts and sciences and to re imagine our collective futures. This book is a unique and timely volume that opens up several new lines of enquiry and arguments on STEAM education. It rebalances and readdresses the current emphasis in the literature around STEAM as another newer opportunity to teach content. Instead, it brings a more specific focus on an entwining of contemporary theorists putting theory to work to extend the means for understanding and cultivating science and arts creativities and make explicit key connections with the materiality of practices. This new go to text offers a demonstration of how the latest research and theoretically engaged thinking, thinking through theory on STEAM education can be put to work in practice.
