## How To Make A Break Jail Recipe:

Food as a Mechanism of Control and Resistance in Jails and Prisons Salvador Jiménez Murguía, 2018-02-19 Murguía explores food and foodways within institutions of incarceration Food like all resources within total institutions is vulnerable to social manipulation Within jail and prison settings food becomes both a mechanism of control and resistance In the former the type of food its quality its quantity and the symbolic significance of its presence or absence all contribute to the socio political experience of the incarcerated perhaps even adding an extra form of punishment to one s sentence not measured in time but rather in terms of cruelty In the latter the incarcerated may view the preparation of food the innovation it may undergo its consumption or even the refusal of its consumption along these same socio political lines Thus viewing food within jail and prison as social facts that engender real consequences reveals a virtually uncharted area of research for understanding the intersection between food and life within the confines of incarceration Of this line of inquiry Murguía asks how food is employed as a means to control prisoners and conversely how do prisoners employ food in the service of resistance As his analysis suggests this text emphasizes a need to advance a broader discussion about the diets of prisoners
