What is an introduction for a research paper?

Introductions to research papers do a lot of work.

It may seem obvious, but introductions are always placed at the beginning of a paper. They guide your reader from a general subject area to the narrow topic that your paper covers. They also explain your paper's:

- **Scope:** The topic you'll be covering
- **Context:** The background of your topic
- **Importance:** Why your research matters in the context of an industry or the world

Why is an introduction vital to a research paper?
