Learning Jazz Ken Prouty, 2023-11-27 Learning Jazz Jazz Education History and Public Pedagogy addresses a debate that has consumed practitioners and advocates since the music's early days. Studies on jazz learning typically focus on one of two methods: institutional education or the kinds of informal mentoring relationships long associated with the tradition. Ken Prouty argues that this distinction works against a common identity for audiences and communities. Rather, what happens within the institution impacts and is impacted by events and practices outside institutional contexts. While formal institutions are well defined in educational and civic contexts, informal institutions have profoundly influenced the development of jazz and its discourses. Drawing on historical case studies, Prouty details significant moments in jazz history. He examines the ways that early method books capitalized on a new commercial market, commandeering public expertise about the music. Chapters also discuss critic Paul Eduard Miller and his attempts to develop a jazz canon, as well as the disconnect between the spotlighted great men and the everyday realities of artists. Tackling race in jazz education, Prouty explores the intersections between identity and assessment. Bandleaders Stan Kenton and Maynard Ferguson, public school segregation, Jazz at Lincoln Center, and more. He further examines jazz's public pedagogy and the sometimes difficult relationships between jazz people and the general public. Ultimately, Learning Jazz posits that there is room for both institutional and noninstitutional forces in the educational realm of jazz.

Whiteface Michel Büch, 2022-02-07 This study originates in the observation that improv comedy or improvised theater has such a vast majority of white people practicing it, while other improvisational or comedic art forms like jazz, freestyle rap, stand-up, etc., are historically grounded in and marked as Black cultural production. What it is about improv that makes it such a white space. Can an absence be an object of study? If so, what is there to study? Where should one look?
