Genetic Discrimination Gerard Quinn, Aisling de Paor, Peter Blanck, 2014-11-20 As genetic technologies advance genetic testing may well offer the prospect of detecting the onset of future disabilities Some research also forwards that certain behavioural profiles may have a strong genetic basis such as the determination to succeed or the propensity for risk taking As this technology becomes more prevalent there is a danger that genetic information may be misused by third parties and that particular genetic profiles may be discriminated

against by employers by providers of social goods and services such as insurance companies and even by educational facilities This book explores the different forms and potential uses of genetic testing Drawing together leading experts in disability law bioethics health law and a range of related fields it highlights the ethical and legal challenges arising as a result of emerging and rapidly advancing genetic science On examining transatlantic perspectives on the matter chapters in the book ask whether the US Genetic Information Nondiscrimination Act GINA is proving to be an effective tool in addressing the issue of genetic discrimination and alleviating fears of discrimination The book also reviews what insights may be gained from GINA within employment and health insurance contexts and asks how the UN Convention on the Rights of Persons with Disabilities CRPD may impact similar debates within the European Union The book focuses particularly on the legislative and policy framework in the European Union with an emphasis on the gaps in protection and the scope for specific legislative action in this area This book will be of great interest to scholars and students of discrimination law bioethics and disability law and will be of considerable use to legal practitioners medical practitioners and policy makers in this area

Trigeminal Neuralgia Giulia Di Stefano,2022-11-30 Trigeminal Neuralgia is a unique neuropathic facial pain condition characterized by unilateral paroxysmal pain most often described as stabbing or electric shock like restricted to the distribution of one or more divisions of the trigeminal nerve territory and triggered by innocuous stimuli Trigger zones are reported in virtually the totality of patients and represent the hallmark sign of Trigeminal Neuralgia The development and application of a dedicated software allowed trigger zone overlap profiling of the extraoral and intraoral territories The analysis of the natural history of Trigeminal Neuralgia showed that the failure of the treatment with first line drugs carbamazepine and oxcarbazepine most of the times is not due to the inefficacy of the drug but rather to undesired effects to a level that causes interruption of treatment or a dosage reduction to an insufficient level These results suggest the opportunity to develop a better tolerated drug Winner of the Competition Prize for PhD Thesis 2020 arranged by Sapienza University Press

The Brilliance of Black Children in Mathematics Jacqueline Leonard,Danny B. Martin,2013-03-01 This book is a critically important contribution to the work underway to transform schooling for students who have historically been denied access to a quality education specifically African American children The first section of the book provides some historical perspective critical to understanding the current state of education in the U S specifically for the education of African American children The following sections include chapters on policy learning ethnomathematics student identity and teacher preparation as it relates to the mathematical education of Black children Through offering counternarratives about mathematically successful Black youth advocating for a curriculum that is grounded in African American culture and ways of thinking providing shining examples of the brilliance of Blacks students and promoting high expectations for all rather than situating students as the problem the authors of this book provide powerful insights related to the teaching and learning of mathematics for African American students As is made evident in this book effective teaching involves much more than just engaging students in

inquiry based pedagogy Kitchen 2003 The chapters offered in this book demonstrate how mathematics instruction for African American students needs to take into account historical marginalization and present day policies that do harm to Black students Kunjufu 2005 Empowering mathematics instruction for African American students needs to take into consideration and promote students cultural spiritual and historical identities Furthermore mathematics instruction for African American students should create opportunities for students to express themselves and the needs of their communities as a means to promote social justice both within their classrooms and communities

Abraham Lincoln's Cyphering Book and Ten other Extraordinary Cyphering Books Nerida F. Ellerton, M. A. (Ken) Clements, 2014-03-26 This well illustrated book provides strong qualitative and comparative support for the main arguments developed by Nerida Ellerton and Ken Clements in their groundbreaking Rewriting this History of School Mathematics in North America 1607 1861 The Central Role of Cyphering Books Eleven extraordinary handwritten school mathematics manuscripts are carefully analyzed six were prepared entirely in Great Britain four entirely in North America and 1 partly in Great Britain and partly in North America The earliest of the 11 cyphering books was prepared around 1630 and the latest in 1835 Seven of the manuscripts were arithmetic cyphering books three were navigation cyphering books and one was a mensuration surveying manuscript One of the cyphering books examined in this book was prepared over the period 1819 1826 by a young Abraham Lincoln when he was attending small one teacher schools in remote Spencer County Indiana Chapter 6 in this book provides the first detailed analysis of young Abraham s cyphering book which is easily the oldest surviving Lincoln manuscript Another cyphering book this one prepared by William Beattie in 1835 could have been prepared as a special gift for the King of England The analyses make clear the extent of the

control which the cyphering tradition had over school mathematics in North America and Great Britain between 1630 and 1840 In their final chapter Ellerton and Clements identify six lessons from their research into the cyphering tradition which relate to present day circumstances surrounding school mathematics These lessons are concerned with sharp differences between intended implemented and attained curricula the remarkable value that many students placed upon their cyphering books the ethnomathematical circumstances which surrounded the preparations of the extraordinary cyphering books and qualitative differences between British and North American school mathematics

J.

Pieterse, Marcel Dicke, Saskia C. M. Van Wees, Erik H. Poelman, 2014-04-14 Plants are members of complex communities and interact both with antagonists and beneficial organisms An important question in plant defense signaling research is how plants integrate signals induced by pathogens insect herbivores and beneficial microbes into the most appropriate adaptive response Molecular and genomic tools are now being used to uncover the complexity of the induced defense signaling networks that have evolved during the arms races between plants and the other organisms with which they intimately interact To understand the functioning of the complex defense signaling network in nature molecular biologists and ecologists have joined forces to place molecular mechanisms of induced plant defenses in an ecological perspective In this Research Topic we aim to provide an on line open access snapshot of the current state of the art of the field of induced plant responses to microbes and insects with a special focus on the translation of molecular mechanisms to ecology and vice versa

Prospects for Professional Engineering Education in the Asia-Pacific Region Peter Edward Doe, 2025-04-02. This book examines professional engineering education in the Asia Pacific region in the context of the history of the Faculty of Engineering at the University of Tasmania. It chronicles the development of professional engineering education at the University of Tasmania following the establishment of schools/faculties of engineering in Australia and New Zealand in the late 1890s. For its 100th anniversary celebration former graduates of the university were invited to contribute a written or oral pitch on their experience as undergraduates and their subsequent careers as engineers managers and leaders. Their stories reproduced in this book show a deep appreciation of their time as students. Their careers are a testament to their training. In the second decade of the 21st century the style of learning and teaching at universities changed dramatically. First there was the change to student centered teaching then followed the move to online delivery which was consolidated through COVID 19. Constructive alignment followed with delivered material aligned to Intended Learning Outcomes assessment tasks and Engineers Australia Stage 1 Competencies for Professional Engineers. Post COVID 19 there has been a slow return to face to face teaching. This is a particular challenge for engineering students because of the need for hands on experience in laboratories. This book examines the challenges in training engineers for the future and considers the future of professional engineering education.
