with and investigated the impact of the COVID 19 crisis on the lives of young children. Profound changes have occurred in all facets of early childhood education and care. ECEC Young children and their families, college students enrolled in teacher preparation programs, inservice teachers, caregivers, and postsecondary faculty have endured prolonged periods of quarantine, disruption, stress, and grief precipitated by the pandemic. These consequences have been even more challenging for individuals and groups who were already struggling or marginalized prior to the advent of the coronavirus. Collectively, the chapter authors draw upon findings from their research and insights gleaned from professional experiences to recommend ways of providing high quality programs despite persistent global health threats.

The Role of the Speech-Language Pathologist in RtI Wayne A. Foster, 2018-01-08. The Role of the Speech Language Pathologist in RtI. Implementing Multiple Tiers of Student Support is an innovative resource for school based speech language pathologists (SLPs). The author examines the current interaction among special and general educators and identifies how SLPs best fit into a multitiered response to instruction process. This collaboration requires school staff share the same vision on the operation of the system, understand their respective roles, and merge the curricular with the developmental perspective to build basic skills in support of student performance growth. General educators have traditionally utilized the language of curriculum, e.g., standards, pacing guides, formative and summative assessments to talk about student goals and achievement. Special educators, including SLPs, most often utilize the language of development, e.g., norms, percentile ranks, development milestones to measure student growth. The Role of the Speech Language Pathologist in RtI assesses this apparent clash in nomenclature and identifies new ways for collaboration and cooperation among faculty and administration. In order for the SLP to be an effective partner in the development and implementation of RtI, the author proposes that SLPs should understand the language of general education, be able to translate the curricular needs of students into skill based units that can be measured and progress monitored, have full understanding of the developmental progression of skills and how that progression links to curriculum standards, and be knowledgeable on evidence based practices that can have a meaningful impact on closing developmental gaps and result in higher achievement outcomes. This text provides the blueprint for the implementation of a system of student support that was envisioned in the 2004 reauthorization of the Individuals with Disabilities Education Improvement Act (IDEIA). Unlike other books on RtI, this essential resource addresses the very specific roles that different school level professionals must play to make the system effective. No other text provides SLPs with such a comprehensive schoolwide perspective on the different roles in the process, the different languages used by the professionals in those roles, and how to navigate those different perspectives.
