Gutacker, 2023 Conventional wisdom holds that tradition and history meant little to nineteenth century American Protestants who relied on common sense and the Bible alone The Old Faith in a New Nation challenges this portrayal by recovering evangelical engagement with the Christian past Even when they appeared to be most scornful toward tradition most optimistic and forward looking and most confident in their grasp of the Bible evangelicals found themselves returning time and again to Christian history They studied religious historiography reinterpreted the history of the church

and argued over its implications for the present Between the Revolution and the Civil War American Protestants were deeply interested in the meaning of the Christian past Paul J Gutacker draws from hundreds of print sources sermons books speeches legal arguments political petitions and more to show how ordinary educated Americans remembered and used Christian history While claiming to rely on the Bible alone antebellum Protestants frequently turned to the Christian past on questions of import how should the government relate to religion Could Catholic immigrants become true Americans What opportunities and rights should be available to women To African Americans Protestants across denominations answered these questions not only with the Bible but also with history By recovering the ways in which American evangelicals remembered and used Christian history The Old Faith in a New Nation shows how religious memory shaped the nation and interrogates the meaning of biblicism

New Nation-States and National Minorities Julien Danero Iglesias, Nenad Stojanović, Sharon Weinblum, 2013-03-01 The twentieth century saw the emergence of new states shaped on the classic nation state model How has this model been moulded and implemented What have been the implications for minorities in these new nation states And how have minorities responded to nationalising processes Following a discussion by Rogers Brubaker of his concept of nationalising state contributions to this volume examine the dynamic relations between national minorities and nation states established in the course of the last century including Ukraine Moldova Turkey Malaysia and Israel This book s original theoretical framework and comparative approach offer a new understanding of the complex interactions between the formulation of a state identity and the aspirations of those who do not fit in the proclaimed core nation In light of recent developments in notably Ukraine and Israel this book is essential reading for all those interested in the rights and protection of national minorities and more broadly in the debates over the definition of the polity in a tense environment
