## Law And Sacrifice:

*Law's Sacrifice* Brian Nail, Jeffrey Ellsworth, 2019-07-17 This volume examines the relationship between law and sacrifice as a crucial nexus for theorizing the dynamics of creation destruction transcendence and violence within the philosophical and legal discourse of western society At a time of populist political unrest what philosophical and theoretical resources are available for conceptualizing the discontent that seems to emanate from practically every sphere of society What narrative strategies have been employed within literary theological philosophical and legal discourse to tame or mystify human violence Engaging with the work of preeminent theorists of sacrifice such as Georges Bataille Ren Girard Giorgio Agamben and Jacques Derrida this collection examines from an interdisciplinary perspective the sacrificial logic that characterizes the cultural and political dynamics of law in society The book will be of interest to students and scholars in the field of legal theory and philosophy

**The Law of Sacrifice** John C. Maxwell, 2012-08-27 He was one of the nation's most vocal critics on government interference in business So why did Lee Iacocca go before Congress with his hat in his hand for loan guarantees He did it because he understood the Law of Sacrifice

**Law of Sacrifice** Charles Webster Leadbeater, 1998-12-01 The Law of Sacrifice Charles Webster Leadbeater, 1980 The Social Meanings of Sacrifice in the Hebrew Bible David Janzen, 2012-08-09 This work uses anthropological theory and field studies to investigate the social function and meaning of sacrifice All rituals including sacrifice communicate social beliefs and morality but these cannot be determined outside of a study of the social context Thus there is no single explanation for sacrifice such as those advanced by Ren Girard or Walter Burkert or late 19th and early 20th century scholars The book then examines four different writings in the Hebrew Bible the Priestly Writing the Deuteronomistic History Ezra Nehemiah and Chronicles to demonstrate how different social origins result in different social meanings of sacrifice

The Laws of the Higher Life Annie Besant, 1903 **LAW OF SACRIFICE** SHERRY. LEE, 2023 *The Oxford Handbook of Biblical Law* Pamela Barmash, 2019 Major innovations have occurred in the study of biblical law in recent decades The legal material of the Pentateuch has received new interest with detailed studies of specific biblical passages The comparison of biblical practice to ancient Near Eastern customs has received a new impetus with the concentration on texts from actual ancient legal transactions The Oxford Handbook of Biblical Law provides a state of the art analysis of the major questions principles and texts pertinent to biblical law The thirty three chapters written by an international team of experts deal with the concepts significant texts institutions and procedures of biblical law the intersection of law with religion socio economic circumstances and politics and the reinterpretation of biblical law in the emerging Jewish and Christian communities The volume is intended to introduce non specialists to the field as well as to stimulate new thinking among scholars working in biblical law

Roberts,2023-07-21 Reproduction of the original      **The Law of the Offerings** Andrew Jukes,1929 Mr Jukes books throw more light upon the teaching of Scripture with regard to the mysterious subjects of which they treat than any with which we are acquainted His strain of writing is eminently devout and edifying especially in the views which he advocates of particular rites and usages The notion of the pre millennial reign of Christ vitiates in our judgment many of the most pious and devout passages which abound in this volume      **Aquinas's Summa Theologiae and Eucharistic Sacrifice in the Early Modern Period** M. P. M. Lynch,2023-12-01 This book is focused on the reception history of Thomas Aquinas account of Eucharistic sacrifice during the sixteenth and early seventeenth centuries Although the sacrificial character of the Eucharist has been of interest to theologians throughout the Church s history during the early sixteenth century renewed attention was given to this subject in part because of disputes that arose between Reformed and Catholic theologians about the relationship between the Eucharistic liturgy and Christ s sacrifice on the cross Does the Eucharistic presence itself have a sacrificial quality Can aspects of the liturgy or dimensions of the moral life be considered a sacrifice and if so in what way The emergence of these and other new questions in Eucharistic theology at the beginning of the sixteenth century coincided with a shift within the practice of theology in universities that began to emphasize Aquinas Summa theologiae as the standard text of theological instruction in place of Peter Lombard s Sentences Because of the Summa s relatively late ascendancy as a text of commentary and instruction studying the Summa s reception history involves the interpreter in a complex textuality Although itself a product of the middle ages as a received text the Summa is in many ways a creature of the early modern period Interpreting the reception of this text therefore requires one to consider not only the Summa in its original environment but the life of this same text as it was received in new interpretive contexts      **The Messenger** ,1920      *Health [a Monthly Devoted to the Cause and Cure of Disease]* ,1907
