Eminent Disdain Bromwell Ault, 2009 This book comments on serious social economic political historical environmental and other issues which have tested our elected governments from both parties It points out areas of Constitutional conflict political inertia selective law enforcement and others that pose a real peril to our republic Whether in our foreign economic immigration health care agricultural or other policy choices it finds a common thread which ties our elected representatives to the service of interests that are special rather than national At the root of these failed policy and legislative efforts is an equally damaging failure of our electoral system whereby money is dominant and delivers a Congress that enjoys an incumbency reelection rate of over 90% Not all of our problems are internal however The role assigned to

America as sole superpower following the collapse of the USSR has been one which called for our assumption but for which we were psychologically and historically less than suited The point is not whether others could do better but rather that it has had a negative impact upon our national character and actions This book makes clear that unless we are willing to make a real effort to return to the principles and ideals of our founding and literally pull ourselves together our enviable experiment in representative democracy will no longer be able to meet the needs of its citizens and will fail due to our lack of will not its merit *Resources in Education* ,1998
