Speech and Thought Presentation in French Sophie Marnette, 2005-08-18 This book analyses and describes Speech and Thought Presentation S TP in French from a broad theoretical perspective building bridges between linguistic stylistic and narratological frameworks that have until now been developed separately It combines the French theory of enunciation and different Anglo Saxon approaches of reported discourse into a harmonious whole in order to create a new and exciting paradigm for our conception of S TP strategies Basing its findings on actual corpora and going beyond the canonical categories of reported discourse it shows that the study of S TP strategies is essential to our understanding of phenomena as diverse as the evolution and categorization of literary genres the production and staging of orality in literature the various conceptualizations of the notion of Truth in fiction and non fiction the expression of points of view in narrative the structuring of rhetorical strategies and the construction of the Self versus the representation of the Other in discourse Le doctrinal des jouissances amoureuses
