

Lunar Phases

Part 1: Multiple-Choice Questions

Answer the following questions after understanding the moon's orbit path for the 1st.

Question 1: Is there any point where the moon's orbit is perfectly circular? Explain your

answer. No, the orbit is more like an ellipse, meaning that it goes from being closer to Earth to being further away.

Because of this, the moon's orbit is not perfectly circular, and the speed at which it moves around Earth varies throughout its orbit.

Question 2: The following diagrams of the moon's appearance were made over a 28-day period. Identify the phase, explain when the moon is visible, and label the moon's position.

Diagram	Day(s)	Phase	Diagram	Day(s)	Phase
	<u>1</u>	<u>New Moon</u>		<u>15</u>	<u>First Quarter</u>
	<u>14</u>	<u>Waxing Gibbous</u>		<u>20</u>	<u>Full Moon</u>
	<u>1</u>	<u>Waning Gibbous</u>		<u>1</u>	<u>Last Quarter</u>

Question 3: From the perspective of someone observing from Earth, the moon always presents a consistent set of visible features. Why?

Negotiating Opportunities Jessica McCrory

Calarco,2018-02-01 In Negotiating Opportunities Jessica McCrory Calarco argues that the middle class has a negotiated advantage in school Drawing on five

years of ethnographic fieldwork Calarco traces that negotiated advantage from its origins at home to its consequences at school Through their parents coaching working class students learn to follow rules and work through problems independently Middle class students learn to challenge rules and request assistance accommodations and attention in excess of what is fair or required Teachers typically grant those requests creating advantages for middle class students Calarco concludes with recommendations advocating against deficit oriented programs that teach middle class behaviors to working class students Those programs ignore the value of working class students resourcefulness respect and responsibility and they do little to prevent middle class families from finding new opportunities to negotiate advantages in school *The Design and Use of Simulation Computer Games in Education* ,2007-01-01 A series of well argued but surprisingly entertaining articles go far to set the very foundations of the field of digital game based learning This book is absolutely essential reading for anyone interested in games and learning and will be for years to come James Paul Gee Mary Lou Fulton Presidential Professor of Literacy Studies Arizona State University Learning from serious games generates emotional discussions about the feasibility of games as effective learning devices It is refreshing that the authors are committed to taking an empirical approach to the study of games and education one of research and grounded theory rather than advocacy This volume in an important step in beginning to move beyond hype to a more firm foundation for the use of serious games M David Merrill Instructional Effectiveness Consultant Visiting Professor Florida State University This volume shows that serious inquiry into serious games is a real and valid pursuit The book conveys that what we can gather about how people learn within computer based games and using games contributes to how we go about designing new educational games and using games in more formal learning environments It offers a convergence of thoughts perspectives and ideals that may not always agree but lays all the cards on the table It s very useful to get all these perspectives in one place The authors further substantiate that research into this emerging area is one of promise and one that yields important results providing impact across industry and academia Clark Aldrich Author of Simulations and the Future of Learning and Learning by Doing Audience Response Systems in Higher Education: Applications and Cases Banks, David,2006-02-28 This book discusses the importance of creating Audience Response Systems ARS to facilitate greater interaction with participants engaged in a variety of group activities particularly education Provided by publisher **ASVAB STUDY GUIDE & PRACTICE TESTS 2025-2026** Craig T.
