

7154 SERVICE SHEET No. 603

"B" "C" and "M" Group Models

October, 1946
Revised July, 1947

THE LUBRICATION SYSTEM

The engine lubrication system is of the dry sump type operated by a double-throw pump, situated in the bottom of the crankcase on the right-hand side. The pump draws the supply and return pipes to the tank and the rocker feed and delivery pipes in the B Group. The oil drawn from the oil tank to the supply side of the pump first passes through a close mesh filter. This filter is not fitted to B Group machines as a bit filter is incorporated in the oil return pipe.

B.S.A. Service Sheet No. 603 (continued)

After lubricating the big-end and circulating throughout the engine in the form of oil mist, the oil drains down, through a filter to the bottom of the crankcase from which it is drawn by the return pump past ball valve C and delivered up the return pipe to the tank.

On "B" group machines oil is fed through a union situated in the pipe between the return pump and the tank, to the rocker spindles, and after lubricating the rockers and the base of the inlet valve spring housing (see Fig. 53) An internal oilway connects the two valve spring wells.

Incorrect sealing of the ball valve. I will allow oil to transfer from the tank to the engine, while the machine is stationary. In this event, unscrew the plug over the ball valve C should get stuck in its seating. Clean the ball and its seating and correct, remove the plug.

complete compilation of the 1945 and onwards service sheets was a BSA dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages This manual contains 51 service sheets 169 pgs and includes 14 sheets 62 pgs from that dealer only publication plus the 37 service sheets 107 pgs that were published by BSA under part number 00 4021 It covers the S V and O H V rigid spring frame girder and telescoping fork M20 M21 and M33 models from 1945 63 Obviously as the M20 and M21 were introduced in 1937 this manual will also be of use to owners of those earlier models Please note that service sheets other than those in the 600 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention For additional information the reader is directed to The Book of the BSA 250cc 350cc 500cc 600cc OHV SV singles 1945 1959 ISBN 9781588502292 which covers the B31 B32 B33 B34 C10 C11 C11DL M20 M21 M33 models The OHV 1955 1958 M33 models are also covered in The Book of the BSA OHV Singles 350cc 500cc 1955 1967 ISBN 9781588501561 WALNECK'S CLASSIC CYCLE TRADER, FEBRUARY 1989 Causey Enterprises, LLC, *Chilton's BSA Motorcycle Repair and Tune-up Guide* OCee Ritch, 1968 *The Book of the BSA - An Owners Workshop Manual for Pre-War BSA Motorcycles* W.
