Schulmann,J.R. Martínez Catalán,J.M. Lardeaux,V. Janousek,G. Oggiano ,2014-07-28 This volume summarizes the state of the art of Variscan geology from Iberia to the Bohemian Massif The European Variscan belt consists of two orogens the older northern and the younger southern The northern Variscan realm was dominated by Late Devonian Carboniferous rifting subduction and collisional events as defined by sedimentary records crustal growth recycling of continental crust and large scale deformations In contrast the southern European crust was reworked by major Late Carboniferous collision followed by Permian wrenching The Late Carboniferous Permian orogeny overprinted the previously accreted system in the north but with much lower intensity resulting in magmatic recycling and extensional tectonics These two main orogenic cycles do not reflect episodic evolution of a single orogenic system but a complete change in orientation of stress field thermal regime degree of reworking and recycling of European crust reflecting a major switch in plate configurations at the Early Late Carboniferous boundary      Sizing People Up Robin Dreeke,Cameron Stauth,2020-01-21 A former FBI agent shares his simple but powerful toolkit for assessing who you can trust and who you can't After two decades as a behavior analyst in the FBI Robin Dreeke knows a thing or two about sizing people up He's navigated complex situations that range from handling Russian spies to navigating the internal politics at the Bureau Through that experience he was forced to develop a knack for reading people their intentions their capabilities their desires and their fears Dreeke's first book It's Not All About Me has become a cult favorite with readers seeking to build quick rapport with others His last book The Code of Trust was about how to inspire trust in others as a leader In Sizing People Up Dreeke shares his simple six step system that helps you predict anyone's future behavior based on their words goals patterns of action and the situation at hand Predicting the behavior of others is an urgent need for anyone whose work involves relationships with others whether it's leading an organization collaborating with a teammate or closing a sale But predictability is not as simple as good and evil or truth and fiction Allies might make a promise with every intention of keeping it not realizing that they will be unable to do so due to some personal shortcoming And those seeking to thwart your endeavor may not realize how reliable their malevolent tells have become Dreeke's system is simple but powerful For instance a colleague might have a strong moral code but do they believe your relationship will be long term Even the most upstanding person can betray your trust if they don't see themselves tied to you or your desired result in the long term How can you determine whether someone has both the skill and will to do what they've said they're going to do Behaviors as subtle as how they take notes will reveal their reliability Using this book as their

manual readers will be able to quickly and easily determine who they can trust and who they can't who is likely to deliver on promises and who will disappoint and when a person is vested in your success vs when they are actively plotting your demise With this knowledge they can confidently embark on anything from a business venture to a romantic relationship to a covert operation without the stress of the unknown
