

The mightiest of the mini's.

Trouble with most minimotocrossers is you get too much mini and not enough motocrosser.

But not with the Honda CR80R. The most mighty mini.

The CR80R packs a whopping 18 horsepower.* Even more than last year's pocket rocket. With new porting, new cylinder, higher compression. Even a new piston ring design and silver plated connecting rod bearing retainer. So it's not only stronger than ever, it's tougher, too.

But motocross isn't all muscle. So the CR80R comes with new air assisted front forks. Improved damping and spring rates. Syntallic™ bushings for smoother fork action. A beefed up rear suspension. And more travel than ever, front and rear.

The new box section swing arm is stronger and longer than last year. Tires are both a new design and bigger. And improved frame geometry completes a handling package you have to ride to believe.

Honda hasn't overlooked a thing on this bike, right down to details like a redesigned side panel to help keep the air intake clear of mud.

So about all the CR80R needs to begin winning races is a rider who wants more from his mini. If that's you, your Honda dealer can help you get the most mini for your money.
