for Nurses, Second Edition - E-Book Stephen Babu, 2018-04-26 This book is based on the INC prescribed syllabus for B Sc Nursing students. It is also of great use to the undergraduate students of diploma in nursing GNM and physiology physiotherapy BPT. As the nursing students are beginners in psychology, this text helps them understand the concepts in a very simple, easy-to-understand manner suitable for the undergraduate level. 1. Fully covers the syllabus prescribed by the INC. 2. Covers all the essential concepts of psychology such as learning, intelligence, memory, personality, emotions, etc. 3. Content is richly supported by many student-friendly features: a. Learning Objectives: Readies the learner for what he or she is going to learn from the chapter. b. Key Terms: Give additional insight to the learner about the inner contents of the chapter. c. Multiple Choice Questions: Help the learner enjoy revising the chapter content by solving the short MCQs. d. Short and Long Answer Questions: Based on the actual questions appearing in the university exams, they help the learner map his or her readiness against the actual questions appearing in the examination. Thoroughly revised, updated content as recommended by the panel of reviewers, the best authorities on the subject. The subject content has been developed, refined, and restructured at several points. Chapter on Mental Health and Hygiene has been elaborated with the classification of mental disorder. In chapter on Developmental Psychology, stages of human development have been elaborated with three domains of development. The concept of attitude was explained and discussed as a separate chapter. Application of psychology in nursing has been added to each chapter by the coauthor, an experienced nursing faculty member. Educational Measurement and Evaluation J. Swarupa Rani, 2004 Imparting knowledge is one thing and measuring the same is another. Similarly, perfect teaching is one thing and evaluating the learners is another. In fact, for measurement and evaluation of the level of knowledge of learners requires a particular acumen and a different skill. In today's educational world, the scholars have accorded the status of an art to the capability of an educator or teacher which he or she possesses and exhibits in testing and ranking his or her pupils at various intervals of time. Now we find expert evaluators and examiners who specialise in conducting different tests and examinations. In fact, all teachers should master this skill. However, this is a new stream which demands flawless methods and techniques for carrying out the exercises known as Evaluation and Measurement.
