Evo Uk January 2014 :

The Legacy of Serbia's Great War Alex Tomić, 2024-01-05 In the winter of 1915 following the invasion of Serbia by the Central Powers the Serbian Army retreated across the mountains of Albania and Montenegro together with thousands of civilians Around 240 000 lost their lives Today the story of the retreat is little known except in Serbia where it represents the heroic Serbian sacrifice in the Great War In this book Alex Tomic examines the centenary events memorializing the First World War with the retreat at its core and provides a persuasive account of the ways in which the remembrance of Serbian history has been manipulated for political purposes Whether through commemorations ceremonies or grass root initiatives she demonstrates how these have been used as distractions from the more recent unexamined past and in doing so provides an important new perspective on the cultural history of commemoration **Philosophers at Table** Raymond D.

Boisvert, Lisa Heldke, 2016-04-15 When you boil it down one of the most important things we do each day is eat The question of eating what and how may seem simple at first but it is dense with complex meanings reflecting myriad roles that food plays and has played over the centuries In fact as Raymond D Boisvert and Lisa Heldke show in this book it s difficult to imagine a more philosophically charged act than eating **Philosophers at Table** explores the philosophical scaffolding that supports this crucial aspect of everyday life showing that we are not just creatures with minds but also with stomachs Examining a cornucopia of literary works myths histories and film not to mention philosophical ideas the authors make the case for a bona fide philosophy of food They look at Babette s Feast as an argument for hospitality as a central ethical virtue They compare fast food in Accra to the molecular gastronomy of Spain as a way of considering the nature of food as art And they bite into a slug which is unsurprisingly completely gross to explore tasting as a learning tool a way of knowing A surprising original take on something we have not philosophically savored enough **Philosophers at Table** invites readers to think in fresh ways about the simple and important act of eating **Global Crime** Philip L. Reichel, 2019-07-08 A definitive resource for understanding such far reaching and often interconnected crimes as cyber theft drug trafficking human smuggling identity theft wildlife poaching and sex tourism While many international corporations have benefited from the global economy and distribution of information globalization has also had serious negative consequences This important reference work offers students and general readers a critical understanding of how technology governments political unrest war and economic strife contribute to an increase in global crime This A Z encyclopedia covers key people events and organizations and includes key documents that will help readers to understand the numerous problems created by the many transnational crimes that are growing in severity and frequency around the world Entries address perpetrators and their methods victims who really profits and law enforcement responses In addition to cyber theft and sales of weapons and narcotics the set provides a detailed look at global crimes not typically covered such as corruption fraudulent medicine illegal sports betting organ trafficking maritime piracy trafficking in cultural property and wildlife and forest crime Although some

historical events and people are included the focus is on recent and contemporary topics *ECMLG 2016 - Proceedings of the 12th European Conference on Management, Leadership and Governance* , Proceedings of the 12th European Conference on Management Leadership and Governance **Area Studies in the Global Age** Edith Clowes,Shelly Jarrett

Bromberg,2016-02-29 This interdisciplinary volume is a new introduction to area studies in the framework of whole world thinking Emerging in the United States after World War II area studies have proven indispensable to American integration in the world They serve two main purposes to equip future experts with rich cultural historical and political economic knowledge of a world area in its global context and advanced foreign language proficiency and to provide interested readers with well founded analyses of a vast array of the world s communities Area Studies in the Global Age examines the interrelation between three constructions central to any culture community place and identity and builds on research by scholars specializing in diverse world areas including Africa Central East and North Asia Eastern and East Central Europe and Latin America In contrast to sometimes oversimplified globalized thinking the studies featured here argue for the importance of understanding particular human experience and the actual effects of global changes on real people s lives The rituals narratives symbols and archetypes that define a community as well as the spaces to which communities attach meaning are crucial to members self perception and sense of agency Editors Edith W Clowes and Shelly Jarrett Bromberg have put into practice the original mission of US area studies which were intended to employ both social science and humanities research methods This important study presents and applies a variety of methodologies including interviews and surveys the construction of databases the analysis of public rituals and symbols the examination of archival documents as well as contemporary public commentary and the close reading and interpretation of fiction art buildings cities and other creatively produced works in their social contexts Designed for advanced undergraduate and beginning graduate students in allied disciplines Clowes and Bromberg s volume will also appeal to readers interested in internationally focused humanities and social sciences Cephalopods of Australia and Sub-Antarctic Territories Amanda Reid,2016-07 Australian waters

contain the highest diversity of cephalopods squid cuttlefish and octopus found anywhere in the world They are highly significant ecologically both as top level predators and as prey for numerous vertebrates including fishes seals cetaceans and seabirds Cephalopods of Australia and Sub Antarctic Territories is a comprehensive guide covering 226 species which represent over a quarter of the world s cephalopod fauna With an emphasis on identification this book includes keys species descriptions full colour illustrations and distribution maps as well as a summary of the biology and behaviour of cephalopods and fisheries information This is an invaluable tool for researchers and fisheries experts as well as amateur naturalists fishers and divers TVR Ralph Dodds,2015-07-31 For nearly sixty years TVR produced some of the most thrilling spine tingling hand built sports cars to emerge from any British motor manufacturer Yet it was the period between 1981 and 2004 under the management of Peter Wheeler when the company finally shook off its shed built roots and proved that it could produce

cars that could match anything from Maranello or Stuttgart in terms of performance but at a fraction of their price Illustrated with over 300 photographs TVR Cars of the Peter Wheeler Era tells the story of the design development and engineering of some of TVR's fastest outrageous and most successful cars from the retro styled S1 to the racing Tuscan 1000bhp Speed Twelve and the brutal Sagaris

The Indigenous State Nancy Postero, 2017-05-05 In 2005 Bolivians elected their first indigenous president Evo Morales ushering in a new democratic cultural revolution Morales promised to overturn neoliberalism and inaugurate a new decolonized society Nancy Postero examines the successes and failures in the ten years since Morales's election
