Conservative Hurricane Matthew T. Corrigan, 2014-10-28 Against the backdrop of the Tea Party dominated GOP former Florida governor Jeb Bush may appear comparatively moderate but his record tells a different story In *Conservative Hurricane* Matthew Corrigan probes beyond the mild veneer the sound bites and the photo ops to examine the real evidence of Bush's political leanings his policies politics and legacy as the state's most powerful governor After remaking himself from a strident ideologue into a restrained conservative policy wonk Bush became Florida's first two term Republican governor The small government conservative who in his second inaugural address dreamed of an idyllic Tallahassee free of government employees was unstoppable He presided over the largest accumulation of executive branch authority in the state's history and advanced a multitude of social and economic reforms the effects of which are still felt in the Sunshine State today It was the beginning of a new kind of conservative activism one that has only gained strength in the years since Bush left office From the culture wars to the management of state government Corrigan examines the governor's indelible mark on Florida He demonstrates how the issues most closely associated with Bush's leadership including education reform end of life decisions and gun rights would guide Republican governors in other states as they rode the rising tide of conservative populism For anyone curious about a potential Jeb Bush presidency this book is required reading **The Politics of**

African-American Education Kenneth J. Meier, Amanda Rutherford, 2016-08-22 Based on the 1 800 largest school districts in the United States over a decade *The Politics of African American Education* documents the status of African American education and the major role that partisanship plays The book brings together the most comprehensive database on minority education to date that centers around three arguments First partisanship permeates African American education it affects who is elected to the school board the racial composition of school administrators and teachers and the access of African American students to quality education Second African American representation matters The effectiveness of African American representation however is enhanced in Democratic districts while representation in Republican districts has little influence Third political structures matter but they are not determinative Two different structures election rules and the independent school district create the rules of the game in US education politics and policy but do not limit others from using those rules to change the outcome *Standardized Testing* Carla Mooney, 2015-06-12 The U S Department of Education

believes that standardized testing is a normal way of assessing what students have learned Although 81 percent of teachers believe that standardized testing is a fair way of assessing student progress the pressure surrounding teacher assessment and test grades has produced anxiety among teachers and students alike This illuminating volume details the controversy over standardized testing in U S schools The book provides a history of standardized testing as well as its evolution over the last few decades Expertise Jessica Gerrard, Jessica Holloway, 2023-01-26 This book offers an important and timely critique of expertise showing how it is a keyword shaped by social historical and political debates about what counts as knowledge

and truth and who counts as experts Using teacher expertise as an illustrative case Jessica Gerrard and Jessica Holloway reflect on recent events including COVID 19 and the climate crisis to examine how expertise is never neutral objective or fixed They argue that getting political is not just an inevitable part of teacher expertise but a necessary basis of any claim to it Across the chapters Expertise explores how expertise is socially constructed in relation to governance uses of data and evidence understandings of ignorance and the unknown and ultimately power Using contemporary and historical examples from international contexts the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not and what is and is not expertise Gerrard and Holloway argue that ongoing policy debates about teacher expertise cannot be resolved by neutral definitions of good teaching Rather expertise is unavoidably political in its expression

Making College Work Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially

Informing Social Security's Process for Financial Capability Determination National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on the Health of Select Populations, Committee to Evaluate the Social Security Administration's Capability Determination Process for Adult Beneficiaries, 2016-05-20 The U S Social Security Administration SSA provides benefits to disabled adults and children offering vital financial support to more than 19 million disabled Americans Of that group approximately 5.5 million have been deemed by virtue of youth or mental or physical impairment incapable of managing or directing the management of their benefits Hence a representative payee has been appointed to receive and disburse SSA payments for these beneficiaries to ensure that their basic needs for shelter food and clothing are met Periodically however concerns have been expressed about

the accuracy of the process by which SSA determines whether beneficiaries are capable of managing their benefits with some evidence suggesting that underdetection of incapable recipients may be a particular problem The importance of creating as accurate a process as possible for incapability determinations is underscored by the consequences of incorrectly identifying recipients either as incapable when they can manage their benefits or as capable when they cannot Failure to identify beneficiaries who are incapable of managing their funds means abandoning a vulnerable population to potential homelessness hunger and disease Informing Social Security's Process for Financial Capability Determination considers capability determination processes used by other similar benefit programs abilities required to manage and direct the management of benefits and effective methods and measures for assessing capability This report evaluates SSA's capability determination process for adult beneficiaries and provides recommendations for improving the accuracy and efficiency of the agency's policy and procedures for making these determinations *Evaluating Instructional Leadership* Julie R. Smith, Raymond L. Smith, 2015-02-19 Improve Principal Evaluation And Create Highly Effective Leaders Behind every high quality principal is an airtight system of leadership evaluation that consistently rewards excellence and remedies deficits While teacher evaluation methods have improved instructional leadership evaluation has often stood still and student learning and achievement have paid the price This book offers clear solutions to these and related problems Application of its ideas will ensure high quality leadership in the principal's office year after year Content includes Extensive data presented in a user friendly manner Clear connections to the ISLLC Standards for School Leaders A suite of interactive tools including sample self assessments mid year and final evaluation forms and professional growth plans **Journal of the Senate, State of Florida** Florida. Legislature. Senate, 2013 *Official Florida Statutes* Florida, 2013 *Global Perspectives on Health Assessments for an Aging Population* Ribeiro, Luis Vieira, Ribeiro, Anabela Magalhães, 2023-04-03 Today's society recognizes that the last decades of an individual's life are usually those in which health tends to deteriorate and chronic pathologies increase Action at this level is verified through the increased concern of government officials with the elderly population motivated by the socio economic impact of costs associated with the provision of healthcare in this group *Global Perspectives on Health Assessments for an Aging Population* provides relevant theoretical frameworks and the latest empirical research findings in the area of health assessments for an aging population Covering topics such as ambulatory wellbeing gerontology and neuropsychological assessment this premier reference source is a valuable resource for gerontological healthcare professionals gerontological social workers psychologists students and educators of higher education researchers and academicians **Florida School Laws** Florida, 2011 **FCAT Retakes** Terry Froman, Shelly Brown, 2009 According to Florida Law students must pass the Grade 10 FCAT among other academic requirements in order to receive a standard high school diploma Specifically students must achieve a passing score of 300 or above on both the FCAT SSS Reading and the FCAT SSS Mathematics tests Technically students can retake the FCAT as many times as they

want until they pass it and can even enroll for a free 13th year of public education should they need additional instruction to successfully pass the FCAT At the time of this study students had up to seven standard opportunities to pass the Grade 10 FCAT prior to graduation Students who did not pass the FCAT in the spring of their sophomore year could retest in the fall spring and summer of their junior and senior years The purpose of this study is to report the results of tracking the FCAT retake occurrences and outcomes for one grade level cohort group as they advance through their M DCPS careers Although summaries of the test results for any retake occasion across all current test takers have been available on a yearly basis this is the first cumulative tracking for FCAT retake performance Kaplan Ultimate FCAT Exit Exams Cynthia Johnson,Kaplan,Drew Johnson,2000-09 Addresses the Florida Grade 10 exams including a review of reading writing and mathematic materials and testing strategies
