Rockefeller,2015-06-17 After changing countless wet and dirty diapers parents of toddlers everywhere are more than ready to potty train their child and move past the diaper stage Potty training comes

with its own headaches and frustrations however and you may find yourself wishing for those peaceful days of diaper dom Stay patient and persevere and you will get through this Despite what you will hear from many sources through the potty training stage there is no one perfect potty training method Each child is different and so each child needs his or her own approach to conquering this milestone With that being said here are a few things that just don t work

- 1 Copying Someone Else s Style Somewhere out there is a super child who was successfully potty trained in two days at 11 months I m sure you ve all heard the stories Everybody knows somebody whose child did everything faster better and younger than anyone else And that s great for them Be happy for them and also be a little jealous But don t try to copy their style Just because it worked for their child doesn t mean that it will work for yours Stay consistent with your own strategies and routines It will work better for you than anyone else s miracle fix
- 2 Rushing Your Child It s a pretty accepted scientific fact that children simply don t have the muscles needed to hold their urine until they reach 18 months Some children don t develop those muscles until 24 months or later But even at that age there s no guarantee that your child is ready to tackle potty training There are mental skills that need to be developed as well and some children simply aren t ready for potty training until they are 3 or even 4 years old Don t rush them just wait for the signs that they are ready We ll talk more about these signs later in this book Don t rush into starting potty training and don t try to rush through it either This will be a multi step process that could take three months or even longer If you put too much pressure on your child he or she may become nervous and start holding his or her stool which can create health problems
- 3 Punishing Your Child As I said potty training can get very frustrating Getting angry with your child for having an accident will only delay forward progress If you punish your child for a natural setback they will associate potty training with punishment and become less interested and uncooperative As difficult as it can be you have to stay calm and patient while dealing with whatever messes arise throughout this process With these three things in mind we re now going to take a look at what can work while potty training your child We will cover how to tell when your child is ready tips and tricks from experienced parents the differences between potty training boys and girls common problems that arise and 3 day potty training

Sex Change Mistress Dede,2015-01-09 Sex change is a very broad term that refers to the process of a person or animal changing sex This occurs naturally in some species of animals but more often the term is used to mean sex reassignment surgery The term can refer to either male sexual characteristics being substituted for female ones or vice versa The male to

female substitution is much more common because it is by far the simpler of the two Intersexual individuals may undergo some form of sex change most often as children to take on a clearly defined gender identity In adults the process is usually taken by transsexual individuals Transsexuality occurs when a person's brain identifies with one gender either male or female but his or her body's anatomy displays the sexual characteristics of the opposite role This is called Gender Identity Disorder and undergoing the sex change process is one way to correct this condition This is a very large and complex topic that has been broken down into five subtopics for this e book In the following e book we will survey the various procedures not all of them medical that can come under the heading of sex change take a more in depth look at the sex change operation cover the differences in making the transition from male to female versus female to male and look at the topic of forced sex changes that still go on in some countries While this is still a very controversial subject it is becoming more and more accepted that Gender Identity Disorder is a medical birth condition that leads to confusion depression and frustration in individuals who are born with it Using therapy or medical procedures to bring the body and brain back into agreement with each other often allows these individuals to lead fuller happier lives It is our hope that at the end of this short e book you have a fuller understanding of this topic and a broader knowledge base on which to build your own opinions **Simple**

Rockefeller,2015-06-21 We are born with the natural ability to attract a mate But we have to learn the art of attracting a boyfriend Males including human males are generally

ready to mate at any and every opportunity But mating to a male is just that It is a physical act that feels good and is a natural bodily function To the male the act itself is the entirety of the mission So he is quite surprised when the act is completed and the female is still around In our evolved state he will normally find a way to excuse himself from the situation Basically he has two options He can state that s all there is Or he can run He will run Before we learn how to make a man want to be our boyfriend we must define the term boyfriend A boyfriend is a male companion that you have a deep relationship that sometimes includes a sexual nature But let s explain what a boyfriend is not He is not just a mating partner If the entirety of the relationship is mating that is what it is He is not your boyfriend He is just your sex buddy This is the big one A boyfriend is NOT your husband A husband has a legal and moral obligation to care for you He is required by society to hold you up when you can t stand He promises to remain with you through whatever life throws your way He is your protector partner friend and lover and you are his Being a husband is hard work It takes dedication commitment and much effort When a man moves from boyfriend status to husband status he is in essence saying he will put your needs before his own and build a life with you It is not easy which is why it comes with a legally binding license of marriage which has no expiration date If you want a man to beg to be your boyfriend you must want a boyfriend You must be honest with yourself You want more than a sex buddy but less than a husband You want the closeness of a relationship but understand it stops short of becoming a lifelong commitment You want him to want to be with you and care for you but you understand that you are required to care for yourself and be responsible for your own well being In essence being in a boyfriend girlfriend relationship is digging deep into each other to determine if this is something you want to take to the next level But keep those boundaries clear Neither of you has the right to expect the benefits of spouse And both of you have the right and responsibility to walk away if it is not the right balance Okay so now we know what a boyfriend is and what it is not and hopefully you still want one So how do we prepare ourselves to attract one This book will show you how so let s get started
