Corporate Strategies of the Automotive Manufacturers: Strategic histories, 1978 *Lessons from the Heart of American Business* Gerald Greenwald, Charles Madigan, 2001-02-22 One of America's most respected executives offers his management insights on how to do business now and into the next century Since taking over as chairman and chief executive officer of United Airlines Gerald Greenwald has seen operating margins and productivity go up labor grievances go down and the stock price more than double In *LESSONS FROM THE HEART OF AMERICAN BUSINESS* Greenwald shares his extraordinary experiences and insights on how businesses in America operate today He discusses such pressing management issues as An aging workforce Corporate ethics Dealing with layoffs Building trust with employees Office politics Greenwald also explores business practices and behavior in the second half of the 20th century and the important lessons they can teach business folks about how to manage in the future **Creating the Cold War University** Rebecca S. Lowen, 1997-07-01 The cold war university is the academic component of the military industrial academic complex and its archetype according to Rebecca Lowen is Stanford University Her book challenges the conventional wisdom that the post World War II multiversity was created by military patrons on the one hand and academic scientists on the other and points instead to the crucial role played by university administrators in making their universities dependent upon military foundation and industrial patronage Contesting the view that the federal grant university originated with the outpouring of federal support for science after the war Lowen shows how the Depression had put financial pressure on universities and pushed administrators to seek new modes of funding She also details the ways that Stanford administrators transformed their institution to attract patronage With the end of the cold war and the tightening of federal budgets universities again face pressures not unlike those of the 1930s Lowen's analysis of how the university became dependent on the State is essential reading for anyone concerned about the future of higher education in the post cold war era *Corporate Strategies of Automotive Manufacturers. Volume II: Strategic Histories. Final Report* J. B. Schnapp, 1978 *The Rise and Fall of Corporate Social Responsibility* Douglas M. Eicher, 2017-05-25 Corporate social responsibility was one of the most consequential business trends of the twentieth century Having spent decades burnishing reputations as both great places to work and generous philanthropists large corporations suddenly abandoned their commitment to their communities and employees during the 1980s and 1990s indicated by declining job security health insurance and corporate giving Douglas M Eicher argues that for most of the twentieth century the benevolence of large corporations functioned to stave off government regulations and unions as corporations voluntarily adopted more progressive workplace practices or made philanthropic contributions Eicher contends that as governmental and union threats to managerial prerogatives withered toward the century's end so did corporate social responsibility Today with shareholder value as their beacon large corporations have shred their social contract with their employees decimated unions avoided taxes and engaged in all manner of risky practices and corrupt politics This book is the first to cover the

entire history of twentieth century corporate social responsibility It provides a valuable perspective from which to revisit the debate concerning the public purpose of large corporations It also offers new ideas that may transform the public debate about regulating larger corporations

Executing the Rosenbergs Lori Clune,2016-04-08 In 1950 Julius and Ethel Rosenberg were arrested for allegedly passing information about the atomic bomb to the Soviet Union an affair FBI Director J Edgar Hoover labeled the crime of the century Their case became an international sensation inspiring petitions letters of support newspaper editorials and protests in countries around the world Nevertheless the Rosenbergs were executed after years of appeals making them the only civilians ever put to death for conspiracy related activities Yet even after their executions protests continued The Rosenberg case quickly transformed into legend while the media spotlight shifted to their two orphaned sons In *Executing the Rosenbergs* Lori Clune demonstrates that the Rosenberg case played a pivotal role in the world's perception of the United States Based on newly discovered documents from the State Department Clune narrates the widespread dissent against the Rosenberg decision in 80 cities and 48 countries Even as the Truman and Eisenhower administrations attempted to turn the case into pro democracy propaganda U S allies and potential allies questioned whether the United States had the moral authority to win the Cold War Meanwhile the death of Stalin in 1953 also raised the stakes of the executions without a clear hero and villain the struggle between democracy and communism shifted into morally ambiguous terrain Transcending questions of guilt or innocence Clune weaves the case and its aftermath into the fabric of the Cold War revealing its far reaching global effects An original approach to one of the most fascinating episodes in Cold War history *Executing the Rosenbergs* broadens a quintessentially American story into a global one

The CIA, the British Left and the Cold War Hugh Wilford,2013-10-23 Shortly after it was founded in 1947 the CIA launched a secret effort to win the Cold War allegiance of the British left Hugh Wilford traces the story of this campaign from its origins in Washington DC to its impact on Labour Party politicians trade unionists and Bloomsbury intellectuals

Saving America's Cities Lizabeth Cohen,2019-10-01 An incisive treatment of the entire urban planning world in America in the last half of the 20th century Alan Ehrenhalt *The New York Times* In twenty first century America some cities are flourishing and others are struggling but they all must contend with deteriorating infrastructure economic inequality and unaffordable housing Cities have limited tools to address these problems and many must rely on the private market to support the public good It wasn't always this way For almost three decades after World War II even as national policies promoted suburban sprawl the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs In *Saving America's Cities* Lizabeth Cohen follows the career of Edward J Logue A Yale trained lawyer rival of Robert Moses and sometime critic of Jane Jacobs Logue saw renewing cities as an extension of the liberal New Deal He worked to revive a declining New Haven became the architect of the New Boston of the 1960s and later led New York State's Urban Development Corporation which built entire new towns including Roosevelt Island in New York

City Logue's era of urban renewal has a complicated legacy. Neighborhoods were demolished and residents dislocated but there were also genuine successes and progressive goals. Saving America's Cities is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness opening up possibilities for our own time. Engrossing. The Wall Street Journal Cohen sketches Logue vividly illuminating his forcefulness, his passion, his masculine confidence. The Nation A complex portrait. The Boston Globe An essential read. Library Journal starred review.

Brand Relevance David A. Aaker, 2011-01-25 Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market. This ground-breaking book defines the concept of brand relevance using dozens of case studies: Prius, Whole Foods, Westin, iPad and more, and explains how brand relevance drives market dynamics which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand. By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant and creates barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant. Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors. Describes the threat of becoming irrelevant by failing to make what customers are buying or losing energy. David Aaker, the author of four brand books, has been called the father of branding. This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around, making competitors irrelevant.

Strategic Business Planning Clive Reading, 2004 This practical manual dispels the mystique of strategy and planning, avoiding theory and academic jargon. It is based on the direct experiences of many organisations who have implemented the process and praised the results.
