E. Stallings,2020-04-28 A virtuosic witty charming translation of the greatest epic ever written about mice with wonderful illustrations by Grant Silverstein Stallings elegant rhyming couplets are the perfect choice to honor the mousy Muse Emily Wilson Professor of Classics University of Pennsylvania From the award winning poet and translator A E Stallings comes a lively new edition of the ancient Greek fable *The Battle between the Frogs and the Mice* Originally attributed to Homer but now thought to have been composed centuries later by an unknown author *The Battle* is the tale of a mouse named Crumbsnatcher who is killed by the careless frog King Pufferthroat sparking a war between the two species This dark but

delightful parable about the foolishness of war is illustrated throughout in striking drawings by Grant Silverstein The clever introduction is written from the point of view of a mouse who argues that perhaps the unknown author of the fable is not a human after all Who better than a mouse then to compose our diminutive though not ridiculous epic a mouse born and bred in a library living off lamp oil ink and the occasional nibble of a papyrus constantly perched on the shoulder of some scholar or scholiast of Homer perhaps occasionally whispering in his ear Mouse we may remember is only one letter away from Muse Stallings couplets have a lively nimble music that should captivate modern ears Providing an earthy oboe like obligato to Ms Stallings s airs are the illustrations of Grant Silverstein cross hatched sketches that multiply like mice on the page The Battle in which beans are happily worn rather than eaten still has the power to delight Wall Street Journal A E Stallings is an American poet who has lived in Athens Greece since 1999 She studied Classics at the University of Georgia and later at Oxford University She has published four collections of poetry Archaic Smile which won the 1999 Richard Wilbur Award Hapax recipient of the Poets Prize Olives a finalist for the National Book Critics Circle Award and Like a finalist for the Pulitzer Prize in Poetry Her translation of Lucretius into rhyming fourteeners The Nature of Things was called by Peter Stothard in the TLS One of the most extraordinary classical translations of recent times Grant Silverstein is an American artist who specializes in etchings of a narrative character and in studies of figures landscapes and animals With his wife and two cats he spends winters holed up in his studio in rural Pennsylvania where he uses a catch and release system for visiting mice and the occasional frog Come spring he ventures forth to display his work at outdoor festivals he feels fortunate to have made his living this way for forty years He has illustrated two previous Paul Dry Books titles Davey McGravy by David Mason and The Verb To Bird by Peter Cashwell

The Practice of Folklore Simon J. Bronner, 2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore In The Practice of Folklore Essays toward a Theory of Tradition author Simon J Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior Thinking with practice particularly in a digital world forces redefinitions of folklore and a reorientation toward interpreting everyday life More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies Demonstrating the application of this theory in

folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogiemans connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition

Sweet Thing Nicholas Stoa, 2021-01-14 As children many of us learn to sing If you re happy and you know it clap your hands But despite the familiarity of this tune few of us realize that what we re singing is actually part of a pervasive and centuries old musical scheme This particular pattern the Sweet Thing scheme has generated a large group of songs spanning a broad range of topics genres and time periods but all related through a specific stanzaic form Early twentieth century blues songs My Babe and Motherless Children country songs Peg and Awl and Crawdad Song and gospel songs Pure Religion and This Train use this form along with popular songs like Ray Charles s I Got a Woman The Beatles s One After 909 and the Velvet Underground s I m Waiting for the Man Sweet Thing The History and Musical Structure of a Shared American Vernacular Form studies one of the most productive and enduring shared musical resources in North American vernacular music Author Nicholas Stoa offers the most comprehensive examination to date of the long history of the Sweet Thing scheme exploring how it made its way from sixteenth century Scotland to eighteenth century British broadside ballads to nineteenth century American ragtime Stoa also examines the form in various contexts including early blues and country music and moving forward to rhythm and blues soul and rock music connecting these modern forms to their ancient roots Through this close look at a ubiquitous musical form Sweet Thing shows us how it has linked listeners and musicians alike across the boundaries of genre race and even time
