Kessler,1995-03-01 The focus of Carol Farley Kessler s work is how Charlotte Perkins Gilman developed as a writer and how she imagined a full blown utopia for women This book which offers a fresh reading of Gilman s fiction fills a void in Gilman scholarship in feminist utopian scholarship and in American literary studies Kessler provides three journeys through Gilman s life A Biographical Exploration discusses facets of her life having a substantial impact upon her utopian writing Four themes influence this development the legacy of ancestral expectations her relationships to father mother and daughter the experience of two marriages and a divorce and her friendships with women Gilman and her Prancing Young Utopia presents three stages in the development of Gilman s utopian writing First she imagined neighborhoods writing alternately fiction and nonfiction Second she tested in fiction the expression of utopian principles explained in her nonfiction Finally she created the whole society in her 1915 satire Herland All of the foregoing writing represents Gilman s effort to imagine in fiction solutions that she recommended in her 1898 feminist treatise Women and Economics Writing to Empower Living connects Gilman s biography to her utopian writing as both personal expression and public activism The writing can be understood as equipment for living Ten hard to locate utopian short stories and chapters from four novels conclude the volume The Voice of the Child in American Literature Mary Jane Hurst,2014-07-15 We as adults are reflected in our children those in our literature as well as those in our families and so it is natural to want to examine their presence among us Children and child speech are important literary elements which merit careful critical analysis Surprisingly comprehensive studies of the child in American fiction have not been previously attempted and fictional child speech even that of individual characters has been almost totally ignored Nevertheless the language of fictional children warrants attention for several reasons First language and language acquisition are primary issues for children much as sexual development is primary issues for adolescents Second because vast linguistic efforts have been directed toward language acquisition research a broad base of concrete information exists with which to explore the topic And third language is a key which opens many doors An understanding of fictional children s language leads to discoveries about various critical questions sociological and psychological as well as textual and stylistic This study examines the presentation of children and child language in American fiction by applying general linguistic principles as well as specific findings from child language acquisition research to children s speech in

literary texts It clarifies sorts and assesses the representations of child speech in American fiction It tests on fictional discourse linguistic concepts heretofore applied exclusively to naturally occurring child language The aim is not to evaluate the degree of realism in writers presentations of child language for that would be a simplistic and reductive enterprise Rather the overall object is to analyze fictional child language using linguistic methods **Feminism and Modernity in Anglophone African Women's Writing** Dobrota Pucherová,2022-07-29 This book re reads the last 60 years of Anglophone African women s writing from a transnational and trans historical feminist perspective rather than postcolonial from which these texts have been traditionally interpreted Such a comparative frame throws into relief patterns across time and space that make it possible to situate this writing as an integral part of women s literary history Revisiting this literature in a comparative context with Western women writers since the 18th century the author highlights how invocations of tradition have been used by patriarchy everywhere to subjugate women the similarities between women s struggles worldwide and the feminist imagination it produced The author argues that in the 21st century African feminism has undergone a major epistemic shift from a culturally exclusive to a relational feminism that conceptualizes African femininity through the risky opening of oneself to otherness transculturation and translation Like Western feminists in the 1960s contemporary African women writers are turning their attention to the female body as the prime site of women s oppression and freedom reframing feminism as a demand for universal human rights and actively shaping global discourses on gender modernity and democracy The book will be of interest to students and researchers of African literature but also feminist literary scholars and comparatists more generally **Bodies of Reform** James B.
