Teaching Sociology Successfully Andrew Jones, 2017-07-06 *Teaching Sociology Successfully* is a comprehensive guide to teaching learning and delivering sociology not only with success but with confidence. Carefully combining insightful anecdotes and practical ideas with key theoretical concepts on planning learning styles and assessment, this book is an essential tool for both new and experienced teachers of sociology. Each chapter focuses on a particular aspect of the teaching and learning process, from preparing to teach the subject for the first time to measuring student progress over time in an approachable yet rigorous way. This practical guide will help you to improve your knowledge of specifications and syllabuses at GCSE and AS/A Level, provide the best pedagogic approaches for teaching sociology, think about learning styles, skills and capacities in relation to teaching sociology, gain practical ideas and activities for improving students' argumentation, evaluation and essay writing skills, apply strategies for teaching abstract sociological theories and concepts, make the teaching of research methods engaging and interesting, deal with practical issues such as planning and assessing learning, encourage students' independent learning and revision, connect ICT, social networking websites and the mass media to further students' sociological knowledge, tackle the thorny issues of politics and controversial topics. Drawing on the author's own experiences, *Teaching Sociology Successfully* helps readers to identify, unpack and negotiate challenges common to those teaching sociology. Complete with a variety of pedagogical resources, it provides tasks and further reading to support CPD and reflective practice. This book will be an invaluable tool for students on PGCE social science training courses as well as School Direct candidates and undergraduates studying BEds in similar fields. *The Coalition Effect, 2010-2015* Anthony Seldon, Mike Finn, 2015-03-19 The British general election of May 2010 delivered the first coalition government since the Second World War. David Cameron and Nick Clegg pledged a new politics with the government taking office in the midst of the worst economic crisis since the 1930s. Five years on, a team of leading experts drawn from academia, the media, Parliament, Whitehall and think tanks assesses this coalition effect across a broad range of policy areas. Adopting the contemporary history approach, this pioneering book addresses academic and policy debates across this whole range of issues. Did the coalition represent the natural next step in party dealignment and the evolution of multi-party politics? Was coalition in practice a historic innovation in itself, or did the essential principles of Britain's uncodified constitution remain untroubled? Fundamentally, was the coalition able to deliver on its promises made in the coalition agreement, and what were the consequences for the country and the parties of this union? *2012 GCSE English results* Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification, in particular the turbulence which resulted from the shift away from a mostly linear to a modular system.

combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do
