**Dwelling in Mobile Times** Sybille Frank, Lars Meier, 2019-05-16 In an era of increasing mobilities places of residence are still vital Unlike commuting migrating or travelling dwelling usually evokes at least in modern Western thought the idea of an immobile private place to rest This book explores the places spaces and practices of dwelling in mobile times and considers dwelling under the umbrella of broader transformations in society The manifestations of these transformations are carved out on the level of everyday practices and experiences Bringing together eight case studies from Europe the USA and Asia on subjects such as gentrification homelessness and displaced persons multi local and diasporic lifeworlds professional elites and tourism the book explores various and complex entanglements of mobilities and dwelling in detail In doing so the contributors critically analyse who may be or has to be mobile under which circumstances at present This book thus demonstrates that mobility is more than movement between localities and that to dwell is more than to be at a locality Instead mobilities and dwelling are both shaped and challenged by strong but shifting power relations and are thus deeply contested This book was originally published as a special issue of Cultural Studies

perhaps precisely because of this they hold a very classical vision of the nation state rejecting the abolition of boundaries and the theory of the death of the nation Their unabashed celebration of very classical nationhoods built on post modern premises challenges the Western view of nationalism as a dying ideology that ought to have been transcended by post national cosmopolitanism Marlene Laruelle looks at how states in the region have been navigating the construction of a nation in a post imperial context where Russia remains the dominant power and cultural reference She takes into consideration the ways in which the Soviet past has influenced the construction of national storylines as well as the diversity of each state s narratives and use of symbolic politics Exploring state discourses academic narratives and different forms of popular nationalist storytelling allows Laruelle to depict the complex construction of the national pantheon in the three decades since independence The second half of the book focuses on Kazakhstan as the most hybrid national construction and a unique case study of nationhood in Eurasia Based on the principle that only multidisciplinary can help us to untangle the puzzle of nationhood Central Peripheries uses mixed methods combining political science intellectual history sociology and cultural anthropology It is inspired by two decades of fieldwork in the region and a deep knowledge of the region s academia and political environment Praise for Central Peripheries Marlene Laruelle paves the way to the more focused and necessary outlook on Central Asia a region that is not a periphery but a central space for emerging conceptual debates and complexities Above all the book is a product of Laruelle s trademark excellence in balancing empirical depth with vigorous theoretical advancements Diana T Kudaibergenova University of Cambridge Using the concept of hybridity Laruelle explores the multitude of historical political and geopolitical factors that predetermine different ways of looking at nations and various configurations of nation building in post Soviet Central Asia Those manifold contexts present a general picture of the transformation that the former southern periphery of the USSR has been going through in the past decades Sergey Abashin European University at St Petersburg

design and life cycle sustainability evaluation to assist with development in government industry and academia This book takes a practical step by step approach to designing sustainable plants and processes by starting from chemical engineering fundamentals This method enables readers to achieve new process design approaches with high influence and less complexity It will also help to incorporate sustainability at the early stages of project life and build up multiple systems level perspectives Ruiz Mercado and Cabezas book is the only book on the market that looks at process sustainability from a chemical engineering fundamentals perspective Improve plants processes and products with sustainability in mind from conceptual design to life cycle assessment Avoid retro fitting costs by planning for sustainability concerns at the start of the design process Link sustainability to the chemical engineering fundamentals The Gumilev Mystique Mark Bassin,2016-02-04 Since the collapse of the Soviet Union the legacy of the historian ethnographer and geographer Lev Nikolaevich Gumilev 1912 1992 has attracted extraordinary interest in Russia and beyond The son of two of modern Russia s greatest poets Nikolai Gumilev and Anna Akhmatova Gumilev spent thirteen years in Stalinist prison camps and after his release in 1956 remained officially outcast and professionally shunned Out of the tumult of perestroika however his writings began to attract attention and he himself became a well known and popular figure Despite his highly controversial and often contradictory views about the meaning of Russian history the nature of ethnicity and the dynamics of interethnic relations Gumilev now enjoys a degree of admiration and adulation matched by few if any other public intellectual figures in the former Soviet Union He is freely compared to Albert Einstein and Karl Marx and his works today sell millions of copies and have been adopted as official textbooks in Russian high schools Universities and mountain peaks alike are named in his honor and a statue of him adorns a prominent thoroughfare in a major city Leading politicians President Vladimir Putin very much included are unstinting in their deep appreciation for his legacy and one of the most important foreign policy projects of the Russian government today is clearly inspired by his particular vision of how the Eurasian peoples formed a historical community In The Gumilev Mystique Mark Bassin presents an analysis of this remarkable phenomenon He investigates the complex structure of Gumilev s theories revealing how they reflected and helped shape a variety of academic as well as political and social discourses in the USSR and he traces how his authority has grown yet greater across the former Soviet Union The themes he highlights while untangling Gumilev s complicated web of influence are critical to understanding the political intellectual and ethno national dynamics of Russian society from the age of Stalin to the present day *Market Civilizations* Quinn Slobodian,Dieter Plehwe,Esra Elif Nartok,Aditya Balasubramanian,Tobias Rupperecht,Isabella M. Weber,Antina von Schnitzler,Jeremy Walker,Paulo Chamon,Karin Fischer,Mila Jonjic,Nenad Pantelic,Lars Mjølset,Reto Hofmann,Jimmy Casas Klausen,2022-05-24 A deep investigation of neoliberalism s proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this

literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world. With the notable exception of Augusto Pinochet's Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North. Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek. Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe. This includes B. R. Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms. Manuel Ayau another MPS president and founder of the Marroquín University an underappreciated Latin American node in the neoliberal network. Chinese intellectuals who read Hayek and Mises through local circumstances and many others. Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local.
