Citizenship Education around the World John Petrovic,Aaron Kuntz,2014-04-24 Though certainly not a new idea citizenship education manifests in unique and often unpredictable ways in our contemporary neoliberal era The question of what it means to be a productive and recognized citizen must now be understood simultaneously along both global and local lines This edited volume offers an international perspective on citizenship education enacted in specific socio political contexts Each chapter includes a pointed conceptualization of citizenship education a philosophical framework that is then applied to specific national cases across Europe Asia Canada and more Chapters emphasize how such frameworks are implemented within local contexts encouraging particular pedagogical curricular practices even as they constrain others Chapters conclude with suggestions for productive change and how

educators might usefully engage contemporary contexts through citizenship education Young People on the Margins Loic Menzies, Sam Baars, 2021-03-30 Our society leaves too many young people behind More often than not these are the most vulnerable young people and it is through no fault of their own Building a fair society and an equitable education system rests on bringing in and supporting them By drawing together more than a decade of studies by the UK's Centre for Education and Youth this book provides a new way of understanding the many ways young people in England are pushed to the margins of the education system and in turn society Each contributor shares the personal stories of the young people they have encountered over the course of their fieldwork and practice combining this with accessible syntheses of previous studies alongside extensive analysis of national datasets and key publications By unpicking the many overlapping factors that contribute to different groups vulnerability the book demonstrates the need to understand each young person's life story and to respond quickly and collaboratively to the challenges they face The chapters conclude with action points highlighting the steps individuals institutions and policy makers can take to bring young people in from the margins Young People on the Margins showcases first hand examples of where these young people's needs are being addressed and trends bucked drawing out what can and must be learned for teachers leaders youth workers and policy makers Poincaré, Philosopher of Science María de Paz, Robert DiSalle, 2014-04-11 This volume presents a selection of papers from the Poincar Project of the Center for the Philosophy of Science University of Lisbon bringing together an international group of scholars with new assessments of Henri Poincaré's philosophy of science both its historical impact on the foundations of science and mathematics and its relevance to contemporary philosophical inquiry The work of Poincaré 1854-1912 extends over many fields within mathematics and mathematical physics But his scientific work was inseparable from his groundbreaking philosophical reflections and the scientific ferment in which he participated was inseparable from the philosophical controversies in which he played a pre eminent part The subsequent history of the mathematical sciences was profoundly influenced by Poincaré's philosophical analyses of the relations between and among mathematics logic and physics and more generally the relations between formal structures and the world of experience The papers in this collection illuminate Poincaré's place within his own historical context as well as the implications of his work for ours Testing Times Willis Richard, 2014-02-07 This book focuses on the delivery of public examinations offered by the main examining boards in England since Victorian England The investigation reveals that the provision of examinations was as controversial in the nineteenth century as it is today particularly since the government is now determined to bring in reform The issues of grade inflation the place of coursework in marking and the introduction of technological change all feature in this book Educational policy is primarily examined as well as some reference to the global scene The study analyses archival material from a wide range of sources including those records stored at the National Archives and the London Metropolitan Archives An emphasis is placed upon the various institutions that contributed to the process including the Royal Society of Arts the London

Chamber of Commerce the City of Guilds of London Institute and the University of London Attention is given to the findings of the Taunton Commission and the Bryce Commission and shorter reports such as the Northcote Trevelyn Report which served to radicalise entry and recruitment to the Civil Service The modern GCSE and the plans for I levels are considered and key observations are made about the efficacy of those examinations offered by Oxford and Cambridge universities and O levels A levels and NVQs The reader is given every opportunity to benefit enthusiastically in this account of examinations and those engaged in education whether teachers examiners students or administrators will be able to gain useful insights into the workings of the examination system
