EARLY SETTLEMENTS

The early 1600s saw the beginning of a great tide of emigration from Europe to North America. Spanning more than three centuries, this movement grew from a trickle of a few hundred English colonists to a flood of millions of newcomers. Impelled by powerful and diverse motivations, they built a new civilization on the northern part of the continent.

The first English immigrants to what is now the United States crossed the Atlantic long after thriving Spanish colonies had been established in Mexico, the West Indies and South America. Like all early travelers to the New World, they came in small, overcrowded ships. During their six- to 12-week voyages, they lived on

In addition, the vast, virgin forests, extending nearly 2,100 kilometers along the Eastern seaboard, proved a rich source of game and firewood. They also provided abundant raw materials used to build houses, furniture, ships and profitable cargoes for export.

Although the new continent was remarkably endowed by nature, trade with Europe was vital for articles the settlers could not produce. The coast served the immigrants well. The whole length of shore provided innumerable inlets and
