

A Preschool Goodbye

Sticky fingers, runny noses
Head, shoulders, knees, and toes-es.
Shapes and colors, ABC's,
Taking turns and 123's.

Toothless smiles, hugs, and giggles,
Circle time and lots of wiggles.
Wooden blocks and dress-up clothes,
Learning how a flower grows.

Milk and cookies, first-time friend,
Thinking days like this won't end.
Preschool is done before you know it,
No one sadder than this poet.

Like a butterfly, time has flown,
You have learned and you have grown.
Tiny chairs give way to desks,
Book reports and spelling tests.

So take off now, spread your wings,
Soar to new heights, learn new things.
Just remember, as you do,
Someone's very proud of you!

Teaching Computational Thinking and Coding to Young Children Bers, Marina, 2021-06-25 Computational thinking is a lifelong skill important for succeeding in careers and life. Students especially need to acquire this skill while in school as it can assist with solving a number of complex problems that arise later in life. Therefore the importance of teaching computational thinking and coding in early education is paramount for fostering problem solving and creativity. **Teaching Computational Thinking and Coding to Young Children** discusses the importance of teaching computational thinking and coding in early education. The book focuses on interdisciplinary connections between computational thinking and other areas of study, assessment methods for computational thinking, and different contexts in which computational thinking plays out. Covering topics such as programming, computational thinking, assessment, computational expression, and coding, this book is essential for elementary and middle school teachers, early childhood educators, administrators, instructional designers, curricula developers, educational software developers, researchers, educators, academicians, and students in computer science education, computational thinking, and early childhood education.

Child Development and Education Teresa M. McDevitt, Jeanne Ellis Ormrod, Glenn Cupit, Margaret Chandler, Valarie Aloa, 2012-08-21 Child Development and Education is a comprehensive child development text written especially for educators. It helps students to translate developmental theories into practical implications for teaching and caring for youngsters with diverse backgrounds, characteristics, and needs. The text draws from innumerable theoretical concepts, research studies conducted around the world, and the authors' own experiences as parents, teachers, psychologists, and researchers to identify strategies for promoting young people's physical, cognitive, and social/emotional growth. In this Australian edition, contemporary Australian and New Zealand research has been highlighted, and local educational structures, philosophies, and controversies have been reflected.

81 Questions for Parents Kristen J. Amundson, 2021-05-17 As a former teacher, school board chair, and state legislator, Kristen J. Amundson has spent decades answering parents' questions about school. **81 Questions for Parents: Helping Your Kids Succeed in School** highlights the most important of these questions, covering a child's school journey from preschool to postsecondary education. It includes some of the school secrets parents need to know, the often unwritten rules that can make a child's K-12 experience the best it can be. Should you redshirt your kindergartener and hold them out for a year? How much parent help on homework is too much? And why could playing in the band be a secret to getting your child into a good college? And for parents who are struggling to teach their child at home, there are tips on how to do that while still keeping your sanity and your own job. **81 Questions for Parents** combines common sense, research, and a little humor to help parents support their child to get the best possible education.
