Interaction Geert Brône, Kurt Feyaerts, Elisabeth Zima, Silva H. Ladewig, 2025-08-28 A fundamental property of human language is its ability to simultaneously represent subjects objects or events and express the speaker's stance towards these representations The notion of stance taking involves a positioning along three different axes epistemic the distribution of knowledge e.g. by expressing certainty or uncertainty affective the expression of attitudes and feelings and deontic the expression of desirability or necessity of an action Psycho linguistics and neighboring fields have a long track record in the study of stance taking as a socially contextualized and recognized interpersonal phenomenon focusing on the lexical and grammatical resources that language users have at their disposal to communicate stance but also on the cognitive processes underlying this positioning In addition the phenomenon has been studied extensively in different communicative settings from spontaneous face to face communication to institutional and mediated forms of interaction from different disciplinary angles Interactional Linguistics Ethnomethodology Cognitive Psychology HCI Research etc and using different empirical methods from controlled experiments to qualitative and quantitative corpus analysis

What Really Happened: The Death of Hitler Robert J. Hutchinson, 2020-08-04 Think You Know Everything about the death of Hitler Think Again After World War II 50 percent of Americans polled said they didn't believe Adolf Hitler and Eva Braun had committed suicide in their bunker in 1945 as captured Nazi officials claimed Instead they believed the dictator faked his death and escaped perhaps to Argentina This wasn't a crazy opinion Joseph Stalin told Allied leaders that Soviet forces never discovered Hitler's body and that he personally believed the Nazi leader had escaped justice At least two German submarines crossed the Atlantic and landed on the coast of Argentina in July 1945 Plus there were numerous reports of top Nazi officials successfully fleeing to South America where there was a large German colony Incredible as it sounds the mystery surrounding Adolf Hitler's final days only deepened in 2009 when a U.S. forensic team announced that a piece of Hitler's skull held in Soviet archives was not actually Hitler's International interest increased further in 2014 when the FBI released previously classified files detailing investigations surrounding Hitler's possible escape And the following year The History Channel launched a three year reality TV series investigating if it was possible Hitler did somehow survive So what really happened Popular history writer Robert J. Hutchinson author of What Really Happened The Lincoln Assassination takes a fresh look at the evidence and discovers once and for all the truth about Hitler's last week in Berlin Among the questions the book explores are What did surviving Nazi eyewitnesses really say about the Führer's final days in the bunker and could they have been lying to aid Hitler's escape If Hitler didn't escape why did the Allies not find his body What about Hitler's proven use of body doubles Could Hitler have used a body double in the bunker while he and Eva Braun flew to safety in a long

range aircraft that took off from a runway in Berlin's Tiergarten Why did the FBI continue to investigate reports of Hitler's survival for more than a decade after World War II reports that were only declassified in 2014 What about sensational claims in books such as *The Grey Wolf* that Hitler and Eva Braun lived in an isolated chalet in the Andes and that Hitler died in 1962 Why were forensic tests on crucial physical evidence only conducted in 2016 more than 70 years after World War II ended And lots MORE

Cultural Heritage and Slavery Stephan Conermann, Claudia Rauhut, Ulrike Schmieder, Michael Zeuske, 2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re-ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers charitable and cultural institutions universities banks and insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories who profited from exports to the African and Caribbean markets related to Atlantic slavery
