Walker, Desiree Tan, Noi Keng Koh, 2020-06-29 This book addresses the background of classroom flipping, explores the theoretical underpinnings for why flipping works, and shares current success stories in practice. It provides diverse international examples of classroom flipping for all ages, includes discussions of the authors' studies in the context of the existing research, and illustrates the impact that classroom flipping has had across a range of educational settings, instead of focusing on a specific domain or learner context. It offers a valuable resource for educators, helping them make the flipped learning experience an impactful and meaningful one.
