

HOW TO USE THE NOTES:

- Copy the pages with only questions for learners.
- Pages with questions and answer are given to learners by using a projector (I used a television).
- Learners write the answers in their books.
- If you do not have a projector, the pages can be copied; two per page, front to back. Learners write the answers from the copied pages.
- A booklet can be made from these pages, taken in after use to be used the next year again.

LEARNER BOOKS:

- Start each new topic on a new page. It assists learners to focus on one set of questions and answers when learning.
- Leave a line open between answers.
- Ensure learners number answers properly.
- Use pictures where applicable to paste next to answers.
- Underline key concepts in a topic using one colour.

Give this page to learners to assist them to learn how to write the answers in their book.

FCC Record United States. Federal Communications Commission, 2017 *Global Mandatory Fair Use* Tanya Aplin, Lionel Bently, 2020-11-05 In a path breaking work Tanya Aplin and Lionel Bently make the case that the quotation exception in Article 10 of the Berne Convention constitutes a global mandatory fair use provision It is global they argue because of the reach of Berne qua Berne and qua TRIPS and its mandatory nature is apparent from the clear language of Article 10 and its travaux It relates to use that is not limited by type of work type of act or purpose and it is fair use because the work must be made available to the public with attribution and the use must be proportionate and consistent with fair practice By explaining the contours of global mandatory fair use and thus displacing the three step test as the dominant international copyright norm governing copyright exceptions this book creates new insights into how national exceptions should be framed and interpreted *The Economic History of Central, East and South-East Europe* Matthias Morys, 2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies *History of the Criminal Justice System in Victoria* Colin Rimington, 2023-02-01 This is an authoritative comprehensive account of Victoria s justice system starting with a tour of the historic justice precinct which is located on the corner of La Trobe Street and Russell Street Melbourne The author takes us back to the earliest days of Victoria s settlement and introduces the politicians police magistrates and even the criminals who played their parts in Melbourne and Victoria s development We are shown how the prison hulks developed into stockades on land and uncover the philosophy behind the construction of the prisons many no longer occupied and the building of courts which were built for conducting trials both civil and criminal The book is in many ways an insight into an aspect of Victoria s social history about which little has been written elsewhere It is a valuable addition to the justice bibliography and even exposes a mystery or two It took seven years to research and fact check and includes many photos All of the author s proceeds of this book after costs will be donated to Victoria Police Legacy which looks after families of deceased police officers who have died in the course of their duties **Cholera** Amanda J Thomas, 2015-09-21 A fusion of science social and medical history fascinating the understanding of and responses to cholera are covered in detail and with sensitivity The Victorian Web Discover the story of the disease that devastated the Victorian population and brought about

major changes in sanitation Drawing on the latest scientific research and a wealth of archival material Amanda J Thomas uses first hand accounts blending personal stories with an overview of the history of the disease and its devastating after effects on British society This fascinating history of a catastrophic disease uncovers forgotten stories from each of the major cholera outbreaks in 1831 2 1848 9 1853 4 and 1866 Amanda J Thomas reveals that Victorian theories about the disease were often closer to the truth than we might assume among them the belief that cholera was spread by miasma or foul air The book acts as a complete overview of cholera in Victorian Britain taking a new accessible approach to a topic previously covered predominately by academic researchers Harpenden History

A Living History of Immunology Kendall Arthur Smith, 2015-11-04 In the highly competitive world of biomedical science often the rush to publish and to be recognized as first with a new discovery concept or method is lost in the hurly burly of the moment as the maddening crowd moves on to the next new thing One of the great things about immunology today is that it has only become mature as a science within the last half century and especially within the past 35 years as a consequence of the revolution of molecular immunology which has taken place only since 1980 Consequently most of those who have contributed to our new understanding of how the immune system functions are still alive and well and still contributing Thus A Living History of Immunology collates many stories from the investigators who actually performed the experiments that have established the frontiers of immunology Accordingly this volume combats revisionist science by those who want to alter history by telling the stories a different way than actually happened In this regard one of the good things about science vs other disciplines is that we have the written record of what was done when it was done and by whom Even so we do not have the complete story or narrative of how and why experiments were done and what made the differences that led to success This volume captures and chronicles some of these stories from the past fifty years in immunology
