ELABORATION

- Joseph Stalin was the dictator of the USSR from 1929 to 1953.
- Under Stalin, the Soviet Union was transformed from a peasant society into an industrial and military superpower.
- However, he ruled by terror, and millions of his own citizens died during his brutal reign.
- After Lenin died, Stalin outmaneuvered his rivals for control of the party.
- Stalin built a cult of personality around himself; cities were renamed in his honor; Soviet history books were rewritten to give him a more prominent role.
- He collectivized farming and had potential enemies executed or sent to forced labour camps. Stalin ruled by terror to eliminate anyone who might oppose him.
- He expanded the powers of the secret police, encouraged citizens to spy on one another and had millions of people killed or sent to the Gulag system of forced labour camps.
- During the second half of the 1930s, Stalin instituted the Great Purge, a series of campaigns designed to rid the Communist Party, the military and other parts of Soviet society from those he considered a threat.
- Stalin considered the USSR as 'backwards' and the only way forward was rapid industrial development.
- Industrialization was necessary for collectivization to be successful – bigger farms needed tractors and agricultural machinery.
- First five-year plan implemented in 1928.
- Aims Rapid industrial development.
- Focused on heavy industry – iron and steel – and mass production.
