example the CB125 was first introduced in 1971 but was not available in the USA as the CB125S until 1973 These varying release dates and differing model designations often lead to difficulty in selecting the correct workshop manual Worse yet owners of this series of 100cc and 125cc singles are subjected to considerable confusion surrounding the appropriate selection from the multitude of OEM publications that have recently flooded the on line marketplace Honda published 11 different supplements and addendums to the original ring bound base manual and many of these are listed as workshop manuals by individuals that deliberately intend to deceive or really have no idea what they are selling In addition many of the so called workshop manual reprints are incomplete Consequently should you decide to purchase your manual elsewhere you are advised to confirm that it includes all 257 pages of the original factory manual Owners of the 1959 1966 twin cylinder 125 150cc Benly C92 C95 series are directed to our Honda factory workshop manual ISBN 9781588500823 owners of the 1964 1980 twin cylinder 125 150cc models will require our workshop manual ISBN 9781588502643 Finally please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language However the information as presented is readily understandable In addition while we have done our best to identify any anomalies and errors that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them HONDA 1965-1978 WORKSHOP MANUAL 125cc, 160cc, 175cc & 200cc TWIN CYLINDER CENTER CAM DRIVE Floyd Clymer, 2022-04-30 116 pages with more than 360 illustrations and diagrams size 8 25 x 10 75 inches At the time of Floyd Clymer s unexpected demise in 1970 there were a number of manuals that had been completed and were ready for publication This Honda 125cc 200cc is one of those completed but previously unpublished compilations of various Honda Factory Manuals for the 125cc 160cc 175cc and 200cc center cam drive twins While this manual was likely completed in early 1970 it actually covers the 1964 through 1978 street scrambler and motosport models The primary focus is the maintenance and repair of the major mechanical and electrical components including Engine Transmission Clutch Fuel Electrical Frame Suspension and Steering Owners of the earlier 125 150cc C92 C95 twin cylinder Benly series 1959 1966 are directed to our Honda factory workshop manual ISBN 9781588500823 which is exclusive to those models After his visit to Japan in 1961 Floyd Clymer published The Complete Catalog of Japanese Motor Vehicles ISBN 9781588502209 Based on his experiences during that visit Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA Yamaha 1958 Honda 1959 Suzuki 1963 The predominance of the Floyd Clymer Japanese motorcycle manuals were reprints or compilations of the factory publications which today makes them more desirable than the current aftermarket manuals *Honda 125, 150, 1966*
